

Worship Message

by Bakht Singh

We are corrupt by nature, but through spiritual transformation and praising God, we can be transformed and become like Him.

Duration: 18:02

Scripture: Psalm 34:1-17, John 14:20, Revelation 22:5

Topics: "Worship"

Description

In this sermon, the speaker emphasizes the sinful nature of humanity and the need for forgiveness and transformation. They discuss the difficulty of understanding diseases and compare it to the inward corruption of the human heart. The speaker emphasizes the importance of praising and worshiping God, acknowledging that He is the one who gave birth to us and is always with us. They also mention the concept of being saved by God's grace and the hope of being with Him in eternity. The sermon concludes with a call to praise and thank God, especially for His deliverance in times of danger and war.

Transcript

Then you will see for yourselves more and more how we had become absolutely corrupt. There are so many diseases that can never be easily understood by outward diagnosis. That's why doctors have to use so many tests of the inner body before they can be sure of the disease.

That's why doctors have to use so many tests of the inner body before they can be sure of the disease. Then you will know how horrible the disease has been in the person. By no human means we can ever find out its real nature.

And when you take part in the last table rightly and properly, then these two things will be brought to you. Then these two things will be brought to you. How corrupt you have become and how precious you have become Lord Jesus Christ.

You have to pay to leave us, to forgive us and change us. And that will make you save the world. I will bless the Lord at all times.

I will bless the Lord at all times. His praise shall continually be in my mouth. One of the sure signs of those who are truly born again.

O magnify the Lord with me and let us exalt His name together. O magnify the Lord with me and let us exalt His name together. The rest of the states, Lord may keep them, they have still a song of praise, song of thanksgiving and victory.

Now those who have escaped that danger, they have done so only by thanking God themselves. Now those who have escaped that danger, they have done so only by thanking God themselves. Now their friends, their relations, their neighbors are so full of gratitude how the loved ones have come back safely.

But we have been rescued from a far greater danger than the danger of the war. But we have been rescued from a far greater danger than the danger of the war. Our Lord is asking us to join together and thank Him.

Without a doubt, we thank Him every day. And thank our Lord for what He has done for us. And thank our Lord for what He has done for us.

But He has saved us for a very high purpose. To be with Him forever as a King and Priest. But He has saved us for a very high purpose.

Their faces also began to shine with God's glory and God's beauty. We have been saved by God's grace. One day, we will be with Him and we will be like Him.

One day, we will be with Him and we will be like Him. Our hearts will be completely changed. Our hearts will be completely changed.

You might have seen these melons that we have in the summer time in this country. Not watermelon, kharbooz. I don't think it is kharbooz and tarbooz.

Kharbooz is watermelon. Kharbooz is watermelon. These other melons, when they are plucked from the field, they are gathered in working heaps.

They will select one out of so many. It is a very nice color. I have put them in the center.

And then after a day or two, you find the whole heap in the same color. If you have left them to themselves as they are, they won't have the same color. But when they are put together, I have put one melon inside.

It is a very nice color. Then you find the whole heap of the melons has the same flavor, same and same color. Then you find the whole heap of the melons has the same flavor, same and same color.

Now you find a different logic again. Now you find a different logic again. We can be like him.

Even though we have abandoned so many marks of our past lives, even though we have abandoned so many marks of our past lives, but we are going to be transformed completely. And we shall be like him. And for that, again, we have to praise him.

And we have to be kept in the logic. Not good. That is the man that is in him.

For taste and see. Now we wanted also to have the same experience. We do not satisfy it by having our own experience.

We want our neighbors, our friends to come and taste it. We want our neighbors, our friends to come and taste it. And that is why we take part together in Lord Shiva.

To our transformed life. To our transformed life. Now we go to worship.

But if you worship loudly, you will not be heard. And you will not be heard by others. And please do not bring your worship in small words.

So that many people get the opportunity to listen.
