

Detailed Obedience

by Brian Guerin

Brian Guerin's sermon emphasizes the critical importance of detailed obedience to God in our lives and the need to address small issues that can hinder our spiritual progress.

Duration: 36:37

Scripture: Exodus 2:2, Exodus 23:20

Topics: "Obedience", "Spiritual Growth"

Description

Brian Guerin emphasizes the significance of detailed obedience to God's voice, drawing parallels between the biblical story of Moses and contemporary issues such as abortion. He highlights that God is raising up deliverers in this generation, much like Moses, and stresses the importance of addressing the 'beasts in the field'--the small, often overlooked details in our lives that can hinder our spiritual progress. Guerin encourages believers to focus on faithfulness in the little things, as neglecting them can lead to significant consequences in fulfilling God's calling. He reminds the congregation that God desires to purify His church and that our attention to detail matters greatly in our walk with Him.

Transcript

I just want to talk to you from my heart on what I've been preaching like all week, so it's a bunch, but oh, I do want to share this real quick. This is interesting. Hello, how are you doing? Welcome, welcome.

Beautiful dress. Look, so this is what I thought, just because you guys are getting it in how the Lord works. So we're all week, El Salvador, jump on the plane yesterday, handful of us fly back.

We're not up in the air long at all. I'm sitting next to Judah, and again, it's very out there, but like it's obviously on the heart of God. I think it's super important.

I'm excited about it. Slip into this quick scene in prayer, and I see what would have been me looking from the basket that baby Moses was in by the reeds in the river when his sister put him in. Super random, out of nowhere.

I'm like, why am I seeing this? You all remember that? There was what would have been Pharaoh killing off the young ones, and the Bible says, I think Exodus 2, that the mom saw that Moses was a beautiful baby and hid him for three months, super key, because I finally came to this morning. I was praying in the spirit. I was like, Lord, what was that about? And it just shows it, because mind you, I'm in a plane coming

back to America, and anybody that's followed us for any length of time, my predominant call is here.

I have dear friends that saw things the revelations have built over the years. My main MO is to this country, which I think's like, yeah, easy to say now, but in the end days, I think it's not gonna be a popular one. You don't see America anywhere in the book of Revelation anywhere.

It's all gonna start going back to the east, and so when persecution hits a high level, it just seems easy now, so it's a great honor, but a lot of times I think it's just important to note this. You can watch the nature of God's voice to your life personally, specifically in direction of what your call is. However it consistently flows, when it really hits these higher peaks and things like this, normally it can tell you by default your call.

Does that make sense? Like meaning if you're called to be a mechanic and you're walking around Walmart and the Lord's voice is very generic, vague, and then you walk by an auto zone, the Lord's like, ding, ding, ding, ding, like it starts getting peaked and specific, and His voice often does that, so I get on a plane and come back here. Mind you, I'm there all week. We're flowing in words of knowledge.

I'm more trying to take the back seat here of the Lord on our team to delegate and let them just go for it, and they did amazing. Mary John, Mabel preached at a prison, like 800 prisoners, just, it was powerful. Yeah, yeah.

Yeah. Yeah. Yeah.

They did so good, and a lot of our team members just going for it. So, but I go on this, and I see what would have been looking from Moses' basket. I could see the reeds by the bank that where she put him in to protect him, and we all know he floats down, and I guess that's how he got brought into Egypt to begin.

So I was like, Lord, what is this about? more of a like prophetic thing that's on the Lord's heart I think for years to come and this morning it dawned on me this recent Roe v. Wade thing because because how many know this in Scripture when you start seeing mass killing of children typically it's way deeper than that the enemy knows there's deliverers first off the devil loves to steal kill and destroy but also often there's a window that the Lord's got a major deliverer being birthed in that time they did it in Jesus Day remember that they were killing off all kind of children and Jesus by an angel coming to his father in dreams was protecting baby Jesus because he was like the deliverer well Moses gets spared out of all the killing of the babies while I looked because obviously I don't talk about politics a lot only because it's not really my grace although I know people are called to it that's awesome I'm more Bible Great Commission priest the gospel but yet I'll vote all day long I'm always gonna vote Bible you know against abortion also so um anyway I looked and apparently the Roe v.

Wade passed was it June 24th yeah and so I started doing the math again she's a prophetic what's important to the Lord because I'm in El Salvador get on a plane it's almost like he was waiting to come back to this country I want to tell you something about your country I'm raising up deliverers for the last hour like it's yeah man and again it's gonna be way out but with where I'm getting at I'm slowly figuring out what he was trying to show me and there was pretty cool cuz Judah has a similar call when he was three years old the Lord told me I'd have a call like Daniel and at seven he started going into visions and so ever since he sees crazy stuff we don't talk about it a lot unless it pertains to something but which doesn't make anybody more special anybody just the call what just happened so that's a thing I think that's healthy too some people are gifted administration and they're gonna get to heaven to have a bigger mansion than the prophet I guarantee you often if they did it if they obeyed better so it's never about like the wild stuff but

since he was young he'll see crazy stuff governmental whatever so I didn't know what he's in the plane seat next to me praying and he goes into a vision about a ministry actually a pretty notable one here we're not close with them so I have no relational leverage but it was a burden that hit him and he doesn't even think like this we're just eating something at the airport got on the plane all the group of us are flying back and he saw their logo tear in half once and then tear in four pieces and he knew he had the interpretation because oh man I pray this not be so but I think there's gonna be a division at the core and then smaller division in a broken up groups and so like man pray into it the Lord's giving stuff at a young age and but again America you see the call like it all of a sudden look yeah get back to your country I've got I'm trying to show you stuff and but with I believe what the Lord's saying and just important matters to his heart that got triggered because I'm coming back here is June 24th if you count June 24th so let's call it July 24th what one month to August two months to September right we're at three months and remember Moses we're almost right at the third month from Roe v.

Wade remember Moses is protected for three months and put in the basket and spared during all the what would have been like our abortion currently I think we'll know one day in heaven but I feel like the Lord masterfully omits so much more but it was so critical that it did it be because a lot of states are it's totally illegal now some are still in the back and forth but but some is completely illegal I think what the Lord did starting June 24th is he protected some young ones that were born to the earth that would not have been that you mark my words before the Lord's return are gonna be gunners Moses deliverance for the people of God and what's wild is and I love that about God because he's in 2060 just as strong as he is and now he's omnipresent omniscient he's everywhere all of time

it's just as real that's how you slip into the presence often and see ten years out and it'd be so real have you ever done that you had a vision of your future it was so real you're like that's gonna happen next week you know let's go nations you're like yeah that's gonna happen about ten years it's just how he is I had to learn that early there's some to date that still I've not even seen the surface scratch that I know I've impact in in areas that there's no way of it happening but he's so far out there Oh but Revelation 11 talks about the two witnesses right before the Lord's return and in the two kind of resumes of both or hands down Elijah and Moses and I believe they're gonna be if you look at it closely a lot of people say Elijah and Enoch and I'm okay with that too that's awesome

but if I'm just talking if you look at this strict scriptural resume says two witnesses will come right before the return of the Lord one for sure we knows Elijah Bible says it's real clear on that even the Lord coming down on the mount of transfiguration says look oh yeah Elijah is to come but he did just come in John the Baptist but he'll come again and so he'll forerun the the return of the Lord but the other one it says one has the power to caught you know called droughts that's Elijah call fire down from heaven the other one his resume is this call for any kind of plague in the earth and turn water to blood that's what these two witnesses resumes are and I think we're gonna see like these two not not strictly but pretty predominantly ministry models come back on the forefront in the

last hour before the Lord's return because it will be needed remember what Moses was needed to do get the children of God out from under some hardcore oppressive leadership that's the persecution things like this Elijah against the Jezebel type realm which is real key sooner all that being said nobody knows the day or the hour but I feel like omits so much more what the Lord just did with this Roe v Wade thing was spare some in time deliverers that just came into the earth their babies right now many believe the Antichrist is already in the earth I believe so you know get nobody knows the day of the hour but he's already I don't know what age but it obviously matters to the Lord I don't doubt in the last hour let's just call

it 2060 again nobody knows the day or the hour but let's just

say 2060 and hey young man what's up you come on in I got you take my seat or a row you've been good good to see you how's your foot oh does it okay we can pray again you're looking good though but let's say 2060 you know the Lord's return ish it could be too who knows we don't know but let's say in that window of the two witnesses I guarantee you we're probably gonna see some in time powerhouses and that's another thing about Moses signs and wonders prophet full out wonders if you look at those two witnesses in the end Revelation 11 they're bad to the bone leave and resurrect after three days it's very in parallel with the Lord and there's an earthquake and all this but I bet in towards the end we're gonna like who are these handful and I believe many will be birthed out of other nations

but specifically because of the call I think he's highlighting ours as well we'll be like oh that's so-and-so they were born in 2022 August actually September 2022 gunner walks with heaven deliverer you know and it's just awesome that I think sometimes the Lord lets us look behind the scenes what's more important because we just want to protect life as we should that's vital but he's seeing like no there's some deliverers as well I need to birth for the end times does that make sense to you guys so I think it's really awesome okay so I'll just share from a heart briefly what I've been sensing we'll see where it will go and I've actually taught somewhat on this but I go ahead from a different angle on the details of life like watching the details in in many different areas decisions it

could be sinful things whatever it may be however the shoe fits but you see I taught this more in depth at school one time but in Exodus 23 God talks to the children of God about progressing deeper into what he's calling them into how many you want to go deeper into your destiny and promise of God yeah what's amazing says look I'm gonna send an angel with you I'll be with you you can read it on your own time but readers digest and I'll begin to take you through the land of the Cainites parasites termites you know all the ites and and you'll move them out of the land and it's all this exciting promise and I just feel like in this hour the Lord's watching more the details of our life the details the small things and if we aren't willing to watch the details and yield in that area in those

areas you won't progress like most and I'm starting to see that like the greats pay attention and yield at the small level the details anybody's good with the big things seen on the outside of the big decisions and and all that but the details so he says you know you'll begin to progress take ground and then a peculiar verse like maybe verse 28 somewhere in there Exodus 23 he says but I will not drive them out in one year he gives him all this great promise and he's like but it's not gonna be quick and then he goes to explain why he says because there's beasts in the field and if you don't drive out the beast in the field they'll overtake you super like just interesting verse and a lot of us think but greater is he that's in me and got in God and we want to we want things quick but from

what I can tell biblically God's very fast actually what if you let him move and you're not in the agenda he's like suddenly Holy Spirit came BAM that's how he moves he's after 11 days to the promised land that took them 40 years because of them so the delay and all that it's about ninety nine point nine percent of the time us and nobody likes this kind of preaching it's just biblical though it's just if things are delayed we love to I don't know why we do it I've done it we love to say well it's just God he's working things out and he's it's his timing and all this and sometimes it is but biblically often it's us and I kind of like that because it just helps me like you know what this is just truth I need to man up get responsible I need to change some things and yield better here make

these decisions a little more accurate and it unlocks things but it's interesting because he says he says because of beasts in the field so I remember when I thought this in class like let's say each tile square is a and destiny and basically he says look I'm not gonna do it fast though because for your sake if you do not drive the beast out of the field down the road it's gonna cost you greatly and these are the details I think we often overlook and we're like God but you know you know my history and you God you know my revelation how my care my gifts or whatever it is we look at all our great assets that we think we carry and we think we need to be way down here and God and what's taking so long but he sees the small details that if we neglect them now they'll overtake us there and it

will cost us greatly then because how do you know if you're just on a bike with training wheels you fall off of that not so bad maybe skin a knee but if you're on a 10-speed bike on the interstate and you're flying now and you make a mistake there it costs you greatly you know and destiny similar so he's like yeah I remember say we progressed to this part of destiny and then the beast I liken them you can teach us from so many different angles but also see them almost as the little foxes in Song of Solomon to it's the little things it's the little things you know I've seen them in my own life he's always still working on but others that well as well and if we don't address them because that's the whole thing we think they're little they're just pointless no you know no real significant

need to to address them but often that's what's hindering us to from moving forward it's the little things sometimes it's it's pride and the Lord knows it's not seemingly too costly now to have some pride still in your life but down there it'll cost you greatly and then you'll have a following at that point and it'll take them all out you know and I see him paying more attention to because it just counts more now the more we're nearing his return it really counts more now and so he's just like saying hey I'm the most patient one you ever met I'll keep you in that square all your days and I really think a lot of people enter heaven still stuck in the same square never progressing because that cuz he this is one thing about God too and you all know this he's gonna have it his way or it's

not gonna be a way he does not you know I love the Bible says appoint people be very slow to appoint people to leadership as little verses like that you're like but why they're so gifted and I start to see it now he's like no I'm telling you be very slow very slow because you start giving delegation and authority then the bride creeps in look at me you know in a lot of times this is the problem again I speak from my life too you never can know the beast are there until you progress to the next field you think you do but you can't until you step into that field you don't know they're there how do you know if you can handle pride well if you've never been given enough for platform or whatever it is but back here it's easy to say I would never do that why did they do that you know this that

and the other it's like yeah wait till you start getting a little bit of attention people saying how great you are starts getting to people's head one of the greatest derailments of destiny is fame people can't handle it we need the Lord man oh my gosh we need him he just somehow he can keep you humble and in in truth cuz and you realize like you're useless without him but recognition so many people fail there and they like it and then they want to kind of turn the mirror a little bit more to themselves and the Lord's I cannot give you that if you still have the mirror point to yourself there's so many of them like the beast of the field of little foxes but pride would be one like I said fame self-glory I don't know what it is with us as humans we always want you know we've got to say that

one little thing to where the attention draws back to us and it's like let's be honest anything that was ever done of anything of any kingdom were through you was all Jesus like you had zero to two with it you know

you yielded but other than that like if you couldn't heal a pinky toe on a ant you know if they have toes I don't know if they're or whatever you don't have a different prophetic word float or something so so yeah I'm just like yes Lord help me actually focus more on those now not at all like where you start to go in and self examine and in condemnation that's never the Lord he's not on that train at all so not that I want you to mishear me you know where you start kind of go with just self searching and digging and you get into those heavy stuff never that you're always Jesus

searching but somehow in loving him well he has a beautiful way of like yeah neat we need this to move so we can progress because often he wants us way down the the path and he's he's instilled the gifts and the ability to do it it's just the beast in the field that he knows will take us out you know and so just want to encourage us with that like the little foxes song of Solomon 215 says catch the little foxes they're little you don't see them often people don't see them it's the issues of the heart and I think if we flipped it into heaven and there's like a meeting council room in heaven they're looking at raising up greats in the earth let's just say the council of heaven and I guarantee they're flipping through the pages of the little things because anybody can show up big for the

notable things but it's when the little details get overlooked that's where the enemy creeps in that's where you you hit the rock the second time instead of speak to it things like small things you know and they matter more they're again not out of condemnation just out of like help me Lord so song of Solomon 215 you know it's and I love that it's in the context of love intimacy relationship song of Solomon but it says catch the little foxes that destroy the vine for our grapes are tender the fruit of our life you know we all know John 15 says abide in me Jesus says I'm the true vine abide in me and you'll bear much fruit but often again those little things if we're not careful it could be looked at as relationally hindrances to the Lord with him which is of utmost significance in the

second destiny or the beast of the field in regards to destiny and gaining ground and but these little foxes they come as those little details of life and before we know it what should have been a bounding fruit starts to diminish because of them not because the devil not because of God didn't desire it it was never his will because we allow them in our life does this make sense to you guys so yeah so basically want to share that we see the details of like I have a whole list and I may go to him in a second but of progressing so like help me get better Lord at like the simple small things like starting a major on the minors you know like keeping your word faithfulness we can go in integrity character things like this are massive they get missed so often and so I love an old David Hogan

teaching where he was preaching at our Bible College before I got there I'll never forget he goes you want nations get faithfulness he'll give you nations you want power get responsibility he'll give you power and you start saying when I was young I'm like yeah I'm like responsible of what like I got to pay my apartment note this week you know I don't know but you start to see like oh wow these things matter big time these are the thread that holds it together to actually hold the weight of what God wants to place up upon somebody's life and so you can look at like characteristics character things like that but also the beast of the field that I believe often creep in and we don't realize it like I mentioned earlier pride self-glory things like this often another big one is trying to take

away to put it it's like an ice machine or something I'm trying to think of way to put it this is a big one I've seen though networking other a lot of other doors and in just our own understanding there's a lot mixed into it but this is a big one where God tells you one thing and the true way to progress in the field and destiny that God's called us into and remove the beast every time is obedience to his voice in him alone

Jesus says I do only what I see the Father doing say I want to hear him say but often we'll step in or God spoke up for us to be here but we always leave a few doors open just in case and we're always looking just in case there's a grass greener here or let me network here and I've seen that in the Lord's why are you doing that that you don't trust me you're not

leaning for the only just stay in that field until you're done with all your doors and people don't realize you'll stay I've seen it I've seen it and in our natural mind we think we've got more working and going because if I can network and connect or keep liking that you know story or situation to keep that connect there's a lot that goes into all this and the Lord's like I need all that cut off so I can take you further into my voice but because you trust you've got trust in all these other things because you just want a way out it feels better you guys know this is the way of the world get a lot of swords in the fire other get revenue streams and all this which again I'm okay with that the Lord speak to you I'm just meaning you see it in destiny and those are beasts as well and the

Lord's I can tell you can fully trust me let go of it all because for you to let go it makes you nervous because you're thinking wait a minute you know I've kind of can work my own thing but we don't realize in letting go of that removing the beast of the field we can progress you know but in ourselves this makes sense to you guys it's I know it's generic but like you see it happen all the time again I've been guilty of this but there's so many of them that I think if we'll get still before the Lord like help me because you're not the hold up you're not the delay but I know it's on me and if I can get the beast out of the field the little foxes whatever it may be you allow me to progress and that we better pay attention to the details because I think often why we keep going around the

mountain of the wilderness are these things the little things the little disobediences the little things we're not willing to let go of and you know release and next year we're still in that square we're like man what's going on you know the Lord's like I've been and then often it the longer you do it our heart will get more callous to it we stop hearing God's voice on what we should have let go years ago you know or made a decision of it and things like this so again never out of anything condemning but out of just being more sensitive to like oh yeah the Lord's paying attention to these things you know because his bride is near and he's purifying his church he wants a bounding fruit and he's looking at the little foxes did I ever tell you guys about the Fox and the duck battle I saw did

anybody ever hear this story listen this really happened in Georgia not far from here it only connects because there was a fox in it it's not really spiritual so I was with one of my close friends Brian Jackson and he was in town powerhouse went to Bible college together he's a missionary you've gone to raise the dead just insane so we're riding back from somewhere cut out in the one of these like country roads not kidding I see I was like our minds playing tricks on me right on the side of the road midday about lunch a duck and a fox and the Fox is like doing this and coming at him so I'm like oh are they buddies like where they were that were they raised together it was so out of nowhere I thought they were like pets and friends and so we slowed down I was like oh no the Fox is trying

to get him for lunch no it ends good though so the duck was bold he was like posted up looking at him like try me I'm not gonna die I like duck get out of here like fuck the ducks is not moving he's like try me just looking at him and me and my friend were about to get out and shoo him off cuz I was the last thing I could see this precious duck getting you know the Fox at lunch so this little Fox gets in close I'm not kidding the duck had as big as wham smoked him with his beak yeah and uh and he kind of startled him and his duck was bold he didn't realize the chain of you know food chain you know so but the Fox was still coming or

whatever and in thinking it's another truck came a man he saw it too was so random like the most I wouldn't probably never see that again in my life and

because I was gonna get off get out run the Fox off but the man did that he stopped and whatever and I think broke it up but it's like only in Georgia you know but you know the Bible it's never often these big you know it's and it's funny because remember God gave Adam you can see it's so much places in Scripture he gave Adam the garden that could look at a delegation of authority a piece of land and destiny you've been given and trusted with then the enemy comes that's when the serpent comes and he's very subtle super crafty never this big bad it's not like catch the big lions and bears that are destroying the vines it's the little things am I with what God told me am I being ultra faithful with that and that only or am I busying myself with so many other things and 80% giving myself

to what he told me 90% he's all or nothing and so we get it's just I don't know what it is we get so hung up in so many things that causes us to half-heartedly give in to what he spoke to us which thereby leaves beasts in the field and the gods watching it he loves you the same you're gonna go to heaven Jesus still died for you but he's knowing like I can't progress them to the next square because they're not taking care of the beast in the field now you know what is what is your name right here yeah Tiffany are you together oh so it's a Laura you know them kinda oh you know them okay I thought I was yeah okay Wow welcome so good to see it just you know really just feel like God's I don't know on you there's a calling your guys like oh that's awesome that's awesome where you guys from oh

you're you're in Georgia that's amazing Wow just really since God's heart for you you both and and that's awesome just I'll feel drawn to people at times in the crowd and uh but you know it's like those those smaller details and we're like man okay in the Lord's like finally that's what I've been trying to you know but it's fun like once Adam was entrusted then that's when the the enemy comes in and he'll try to just twist just the smallest little thing but did God say if we buy into it that got him got them they're stuck there they won't have as much influence impacting God seeing you way down here he's seeing us in the land of milk and honey in 11 days but because us and the beast in the field neglect for years you know it's just like oh yeah help me Lord help me like the things that

matter to you and that's what again you heard me highlight on this trip with our students I was watching like character integrity no complaining those things are they scream in heaven while they may some of the young ones are excited like you saw the devil came out and there was miracles I'm like yeah that's awesome but man I'm watching like and I'm learning as I walk with the Lord more those things scream out in heaven whereas the things that will cost you destiny or more of those issues are smaller they're big to heaven they just seem small here and so but yeah enemy comes to Adam you know and it's like once we've been giving given sorry to delegated certain certain realms in God it's like that's when it's you start getting tried and hopefully we'd be better and better at it because I'm

telling you I can attest to it we think we know but you don't tell you're giving it you know everybody's you can look it's easy to look off and assess from the bank but until you've been an actual river and felt the current like you don't know and only the Lord can help us do that so you guys want to stand pray loving the weather come on man I we went into hot muggy it was actually really good but but you know humid El Salvador and the Lord blesses actually is overcoming overshadow or whatever it was really it was good but Zoe's in a jacket like the fall hit right when we left or that tight weather is just so so glorious but I was a prayer team wants to come we'll pray you can play however you feel a little bit yeah so let's focus on the Lord Jesus thank you for your presence your voice

and I pray this morning you would help us better pay attention to the details that you are into being faithful over the little so you can make us ruler over much catching the little foxes the little ones not even big foxes little foxes the little foxes that destroy the vine driving out the beasts of the field of pride and selfish ambition wanting to take glory and notice me and what about me or my way that the way I want it done or God I pray and want your will but it has to be this way this is my list God it's got to be this way it's got to be these details I want for me and this is how it has to be that right there will leave you stuck you can't progress he says if you want to follow me deny yourself take up your cross throw away your list you don't have the right to a list and that's

where we find life so God help us pay attention to the details being a people that are lowly integrous faithful let us walk in humility kindness gentleness self-control and I just pray for this couple of highlighted earlier God I thank you for their life I really feel like there's a like a crossroads right now in your life there's a juncture that heavens taking you and you're both very very faithful very true and genuine pure pure hearts no guile the largest really since the God's love for you and there's really something to do with a deeper a stepping off into the deeper end of committing to him and it's like you're gonna hit this current of him taking you into the purpose as you are born for such a time as this there's an amazing call upon both of your life I see you both is very

different but so you're so full together you complement each other in each other's strengths speak the blessing of God over their life thank you that you're marking them this morning for your purposes thank you Lord that you're marking them such humility upon their life it's like he's gonna take you like on a trampoline it's gonna feel like there's gonna just bounce higher and farther now whereas before it felt stuck it felt like just man nothing's going anywhere nothing's moving there's no no movement but there's acceleration height and progression all founded in madly falling in love with Jesus thank you for this precious couple if you lift your hands to heaven everybody will pray God I bless each and every one in this house thank you for your manifest presence God and everybody online

I pray for supernatural grace this week abundance favor and all things and for a fresh grace and ability to step aside from those little foxes and beasts of the field that we would set our life apart in a new way so you can take us where you want to that you may be glorified and that we may love you fully in Jesus name amen awesome we're just gonna see God together for a little bit if you need prayer we'd love to have you prayer team up here amazing men and women of God and could be anything healing in your body just agreement and prayer for what the Lord's been speaking to you breakthrough in the home your children or whatever it may be love you guys
