

The Days of Noah

by Brian Guerin

Brian Guerin's sermon, 'The Days of Noah,' calls believers to recognize the urgency of the times and deepen their faith in preparation for Christ's return.

Duration: 52:00

Scripture: Matthew 24:36

Topics: "New Beginnings", "Prophetic Dreams"

Description

Brian Guerin delivers a powerful sermon titled 'The Days of Noah,' emphasizing the parallels between Noah's time and the present day. He highlights the corruption and violence that characterized Noah's era, drawing attention to the urgency of building a modern-day 'ark' through the body of Christ. Guerin encourages believers to deepen their relationship with Jesus and each other, as they prepare for the coming of the Son of Man. He shares a prophetic dream that underscores the importance of being ready for a new beginning, as the old ways pass away. The sermon concludes with a call for a mighty shift in the hearts of the congregation, inviting them to step into a new chapter of faith.

Yeah, so I have a word, uh, from the Lord for tonight. I'm really excited. We'll see, first time ever preaching it.

And, uh, we'll see how it shakes out. But, um, first off, where are some of you from, from out of state? You could just begin to, come on upstairs, man. Balcony too.

I can certainly, I can hardly see you in the balcony. I'm being blinded. But wow, where from? If you could name some places.

New York. New York. Come on, who's? Lafayette.

Louisiana? Lafayette. Louisiana? I know there's a different Lafayette. Come on, crawfish.

Let's go. Wow, you guys drove up or flew? Oh, nice. And, uh, where's New York? In the back.

Welcome, everybody. You can come snag my seats if you don't have any or come up on the stage. You maybe have to ditch the drums and put chairs back up there.

We'll see. But, uh, where else? Ohio, South Carolina. Did somebody say Ohio? Virginia.

West Virginia. Welcome. Connecticut.

Come on. You flew or drove? Asheville. Flew.

Wisdom. Absolute wisdom. Yeah, Asheville, my crew right here.

Pastor Sergio, wave at them. They're amazing. Right here.

Wave at them, Pastor Sergio. Yeah. Dear friend, Pastor Nashville, they have a powerful church.

Some of you guys have probably seen our YouTube with them, and they are rocking it over there, so it's such an honor to have them with us. And Pastor Stevie, come on up here, please, and wave at them. I totally forgot last time.

She's amazing. You might say just hello to them. Come on up here.

You need a hand. Just say hello to them. Hey! So let me tell you, Pastor Stevie is dangerous.

Maybe you'll lay hands with us later or something. She's a powerhouse. If you all remember the church I preached at in Moody, Alabama, a couple hours that way, I think, she's the head pastor, and Pastor Matt are the pastors of that church, seeing bona fide miracles, strong deliverance ministry, and just is infatuated with Jesus.

Her beautiful children, look at them all wave. The whole family came. Young man getting rocked right here, but so honored to have you with us so we can minister later.

Yeah, super excited. Awesome. Give her a hand.

Pastor Matt has to preach in the morning, so hopefully he'll jump over and listen. When they do stuff, we'll just jump over and mob y'all's church. It's going to be awesome.

They are powerhouses. Listen, man, the Holy Spirit hit their church, and Pastor Matt was telling me, he said they had a thriving move. Yeah, he would tell them, but he began to want the Holy Spirit in a deeper way.

Melissa, oh, I thought that was Stud Muffin Hubby. What's up, man? How are you? I thought that was you, but I didn't see Melissa, so I didn't know. Yes, indeed, but the Holy Spirit, he longed for the Holy Spirit to begin to move, and they just went all in, and listen, they're just seeing bona fide miracles.

They're really getting tight with Randy Clark and those guys, and I love Pastor Matt. We go fishing and hunting together, but love and honor you guys big time. Pastor Stevie was here with us last time we were here.

He got smoked, so it's so good. So welcome, everybody. Really excited to be with you all, and how does the headset sound? This is our first time going for it.

Would you rather the handheld? Is it good? Okay, good. Praise God, because I love to be--I'm real handsy, but if it doesn't work, I'll go back to bondage and use the--yeah, so we're getting there. And to your friend Benjamin DeAnda, what's up, buddy? Love you.

He's on the front row. And Joshua, yeah, I've heard amazing things about Joshua. It's an honor to meet you.

And anyway, I'll be here all night honoring everybody, but most importantly, I want to honor Jesus. Yeah, man. And listen, I'm not going to keep you long, because that's the whole point of these things.

Glory nights is Him, and I pray He wrecks us to where we're all kind of crawling out of here at the end. Joshua, are you up in the balcony? Wave. Come on, buddy.

You want to come and see me? Listen to this. Can you come down? Come on up here with me, buddy. Look, I've got another backup now, so we're good.

Listen to this, precious young man. I was looking for you Sunday. Sorry to make you do your little cardio, but we had a word of knowledge that a young man, specifically a young man, needed to get born again.

And, you know, how many of you know a lot of lost people don't just flock to glory nights? They're like, yeah, let's go to glory nights this weekend. And so when you hear somebody's not born again, boy, you sneak them by word of knowledge. Look it.

Oh, you brought the Bible. Look it. We're matching, buddy.

Come up here. Let me give you a hug. Say hello.

Yes, indeed. Come on up here, man. Say hello to them.

Bro, I love the slides. Super swagnified. Give me a hug, buddy.

I miss you, man. You been good? You're looking handsome as all get out. So so he got we found him in the balcony when we brought him up there and said, do you know Jesus? And he said, I don't know.

You know, I said, do you have a Bible? He says, no. I said, OK, he's the young man. And I haven't rocked him.

And we're just looking for. Look, we got matching Bibles now. Hold him up.

Yes, indeed. You're going to change the world way more than me. And I heard you play the drums.

You got it, bro. You're going to, you know, just jump on over there and show us what you got. But anyway, I just want to honor you, bro.

And we're here for you and love you. You give me another hug and bless him. I'll give it up for Joshua.

You can have my seat again, too, if you want to ditch the family or. He's like promoting division in the house. But man, so come on, Jesus.

Yep. So had a really awesome prophetic dream and is my first time preaching on it. So give me grace, please.

But I love the now word of the Lord. How many know we need the written word and his spoken word? The Bible says the letter alone kills, but the spirit brings life. And you want both.

And so I love both. We honor both. But this word he puts above his name, someone 38.

Listen, it heaven and earth will pass away. His word never will. We need some people that are really infatuated with the word in this last hour.

Colossians 3:16 says, let the words of Christ, the word of Christ dwell in you richly. I want to encourage you guys to go deep in the word in this hour. And but how many know he speaks often through the prophetic, which is kind of now words.

How many know the Bible is full of the prophetic that threaded together the written word? You know, and so it kind of gave us a blueprint. So, you know, I'm totally forgetting announcements. I'll do more tomorrow.

But real quick are, you know, this will be fun. You don't have to go somewhere after now. I'm just trying to be mindful.

OK, so this would be fun if it will work. Jackie sent me a photo of the yearbook, if you don't mind if we share it here in a second. So Jackie's wife, their powerhouses, by the way, Jackie, they're moving to Orlando.

I want to encourage you guys, if you fell out of the Lord to pray for them, support his ministry. He's rocking it on YouTube. Powerful.

I've been in ministry for years and touching the world. And they're right. Just sold their house today, you said earlier this week.

OK, and and are up and moving on the word of the Lord. But I know sometimes it takes faith in the Lord never tells you the next step, does he? At least with me, he's like, just go, just go, Abraham. But what I tell Sarah, I don't know, just, you know, you know, it's what he does.

And so so you just go. And but anyway, Jackie's precious wife was in the same Bible college school year with us. I don't know if we can put it up or if we have it.

Oh, yeah. Watch this yearbook. I'm hoping y'all can see it.

Look at yours truly over here. You see me rocking the goatee. I mean, OK, but it gets better.

Go up here, Eric Gilmore. Hey, look, Daniel Kalinda. Yes, indeed.

I thought that would bless you guys. Bless me immensely, man. Jackie sent that and I was like, I am getting anxious.

I'd like some orange fleece thing. You zip up and like cheese in for the camera. But just so happens you open that book and there's some of my dearest friends in all of the world.

Eric Gilmore, Daniel Clinton had no idea. And soon I love Jackie, his family. They're going over there and going to be rocking the gospel in Orlando.

But that reminds me on our academy. When I announced that again, we have a two year school of ministry called the Bridal Glory International Academy that has been online thus far. And this fall, as many of you know, in September, we're going live both in person, obviously not having a campus and still online.

And so up to this point, we've had, I think, around 220 students from 18 countries of the world just going for it. Listen, so how many know there's a breed in this hour? They're a little bit crazy. They're a little bit out

there in a good way.

And you just can't tell them anything other than like they're going to find Jesus. They're going to have lamps full of oil, excess oil, and you just can't stop them. And that's this company that we're seeing really transformed and hopefully going to thrust them out into the nations.

Or if you want to stay here with us and ride this thing out to the end. But by this fall, I think we're going to be well over 300. We'll see.

And you can come in person, online, both, whatever works for your schedule. It is probably one of the most economically friendly schools at the moment because we've not had to have the campus overhead. So that will change.

But I've been letting people know get in now. We're big on keeping our word. So whatever tuition level you get in at, your grandfathered in for the whole time.

So I would jump in before. Abby, what is up? Come up here, please. Do you mind? Sorry we're rabbit trailing, but this is awesome.

You've got to hear Abby talk. She's from the U.K. She's like my favorite. I love Abby.

Hey, how are you? Been way too long. Give me a hug. Good to see you.

It's like a cookie, mother. You know, like just say hello to a Pekin preacher or whatever. We've been in the nations together.

Yeah, it's good to be here. Is that amazing? Okay, okay. Love you.

But listen, love Abby. She's been on many of our crusades. She's dangerous.

Listen, you give her the hard case miracles and she's on her legs growing out. She graduated at Bethel School of Ministry, now over with dear friend Daniel Kalinda at Nations Church. You just got back from Tanzania, huh, Abby? Yeah.

What's that? Three months. Yep. And crusades and just, how many of you know the Lord is using women powerfully? Yeah.

Much more powerfully than women sometimes. I loved, if you look in Scripture, the Lord knew what he was doing. He'd always put women around the big kind of encounter scenarios because he knew they'd get the message out.

Let's be honest. Women use a little more words than men, all right? And you can see the Lord's wisdom in Scripture. It's proven, okay? Don't, I'm not trying to get into an argument.

It's proven. It's scientifically. I mean, women use thousands of words a day.

Men use like, you know, probably in the hundreds. Like a deep conversation for men is like, what's going on, man? Good. Good day.

Real good. All right, man. Good talk.

You know what I'm saying? Women are like, girl, I'm glad you asked. You know? First off, I woke up, my nails prophetically matched my outfit. And it's awesome.

It's how it should be. Yes, indeed. But you see, like, he was like, oh, I'm going to get the woman at the well.

I'll rock this whole city. Jesus knew. He's like, I got her.

Watch this. Read her mail a little bit. She went back.

Revival took over the whole city. You wouldn't believe. Da-da-da-da-da.

And then who were the first people to see Jesus when he rose from the dead? Women. Go tell my brothers. And sure enough, and so women are powerful mouthpieces.

And if you're more the quiet women, you're amazing too. But just, you know what I'm saying? It's really good. So anyway, two-year program.

Love to have you with us. Night classes, which is going to be awesome for people that need to work. Dear friends, Daniel Kolenda, Eric Gilmore, Michael Kolianos, myself, Ben Fitzgerald.

He's powerful. He'll be joining us. He's shaking.

Nations and Todd White, Patricia King. Listen, she's a general. Sidney Jacobs, incredible prophet, prophetess, James Gall.

Anyway, the list goes on and on. The point is we're trying to keep it real full. Evangelists, prophets, apostolic to build and shake the body of Christ to give him glory in this last hour.

So if you want to join us, love to have you. There's a strong community online that's building long-term kingdom relationships. And then we'll go even deeper this fall.

It's going to be awesome. We'll be right here at the campus just going for it. And so that'll be great.

I think the now skip those other announcements. Let's just go for it. So anyway, we'll maybe do it tomorrow.

I do want to forget this. Abby, will you be here tomorrow evening or you leave out tomorrow? Oh, nice. Well, we get to catch up with you and chat and everything.

So tomorrow morning we'll be back here. And hey, lovely couple back here. The Jocelyn met.

And how are you all doing? So good to see you again. But we'll be back tomorrow morning. Blow out.

Just go for it. Love the Lord. I have a word.

I want to teach more out of unless the Lord changes in our first job. And then tomorrow night we'll be in here doing something a little different. Teaching our third week of the school of his voice.

So we're in a school right now where we really go deep. It's more line upon line, precept upon precept. Release impartation.

Take communion together. And that's open if you're still in town and want to join us. Come join us.

I'll be on the floor in a more teaching intimate setting. And my son Judah is going to be on the guitar. Listen.

Yeah. It's going to be glorious. He had my mom about weeping the other day upstairs.

And he just loves Jesus. Zoe as well. When we get to let her loose.

They've been digging trenches in the secret place for years, you know. And so we're hearing the Lord. Let them use their gifts and grow.

Okay. So I want to share with you a quick dream. Build a little bit of a word.

And since you already told me, y'all got nowhere to go. So I'm thinking midnight one. No, I'm teasing.

Sergio, you got to preach in the morning? Oh, wow. See, this is real pastors or a real ministry. He's got to go back to Asheville and preach in the morning.

And so I want to share July 8th. Just last week I went into this dream. Michael, Michelle, I'm just seeing so many people.

And it's really a narrow word for the body, honestly. A real, I was like, wow, blown away by it. But also I just unlocked in scripture.

I believe something powerful is going to shift for many of us tonight. So I want to raise your expectancy. Love how the Lord does this.

Never ceases to amaze me how he so intricately ties things in. And he actually did it again. He tied it in through the word to this exact night we're together.

And so really at the end, want to open the altar up. Go for it. Let the spirit move.

See what will shift. And I believe an old set way, still in the Lord. And it was good.

It had to get you to this point. But a door is about to shut and a brand new chapter is about to open. And so it will make sense.

Just bear with me. So I go into this dream, July 8th. I'm taking a power nap, actually.

How many of you love naps? Jesus napped on the boat. That's my scriptural verse for it. And so I take these power naps.

I'll set my clock for like 20 minutes, but my body's been so regimented, my schedule over the years, it just knows. And I don't even hear the alarm ever. I wake up before that.

It's just a quick reset. Funny story is I was, Michael Koulournos was in town once, and I was like, Bro, we're going to take a quick power nap. We'll go to the gym.

How's that sound? He's like, Great. Sounds great. He always messes with me now.

And so I'm thinking my power naps, they really are. They're super fast, you know. So did my thing.

Go downstairs. It was when we were still in Baton Rouge. I knock on his door.

I'm like, Mike, you ready? He's like, Dude, I didn't even get to sleep yet. What kind of nap is this? So he always messes with me. Yeah, you have your glorious nap, you know.

It was with me. So anyway, just enough time, maybe 10 minutes, just to doze off, kind of refresh. And I was about to work out.

And go into this dream. Oh, I can't hear. Oh, there we go.

Do I need to do something, Pastor Stanley? I can use the handheld. Please, no. But I go into this dream where I'm literally walking through what I knew to be a modern-day Noah's Ark under construction.

And my old construction mind, I'm loving this, and listen how deep it was into it. And this is where it's real right now, this hour we're in. So I want you to feel the severity but the glory of it, because the hour we're in really is believers.

And I know it's on the Lord's heart. So I'm walking in. The walls are being constructed already.

I'm seeing metal, screen, mesh. It was a modern-day replica. I knew a modern-day ark that we would construct.

And I'm walking through it, and it's well underway, number one. And I see the screen, things that Noah wouldn't have had available that I know of. They just had wood.

The Bible records it to have been made out of gopher wood, which is cedar. So I'm seeing metal screen. I knew it was a modern-day, our-day ark being constructed.

Walls are going up. Scene immediately shifts, and I see the northern lights whipping through the air. You guys know of the northern lights, the green and purple whipping through.

And I was like, what? And I come out of the dream. I'm about to go work out with Judah. I'm like, what in the world? And I begin to pray unto the Holy Spirit revealed to me.

It's in Matthew 24. Jesus says, as though it were in the days of Noah, so will it be in the days of the coming of the Son of Man. So listen to this.

Had no idea. The Lord's done this for years where he'll mysteriously connect. You guys get it, that are prophetic.

He'll connect prophetic things of knowledge and things like this. Amen. In the now.

So I look up northern lights. I'm not your guy for this stuff. I don't know anything about all that.

I knew what they were. They were beautiful, just whipping through the sky. And I look it up.

I kid you not. The northern lights, the ancient belief tied into the northern lights is, number one, they come at the darkest hour. Matthew 25, the bridegroom comes at the darkest hour at midnight.

It's known. You can look it up. Northern lights best to be seen right around midnight, the darkest hour.

And it's the ancient belief around the northern lights is that they would appear to announce the coming of the Son. I was like, I had no idea. Because I was like, Lord, I get the ark and I get the days, but like the northern lights, what? And I know more will unfold.

This just happened on July 8th. But I'm telling you, he's highlighting again in a powerful way, the hour we're in. Listen, we've been chosen.

We're in the last of the last days. So Matthew 24, which is an exciting thing, I'll read it to you. I brought two versions because I like different angles on both.

I'll start here in the New King James and jump over. But listen to this in Matthew 24. You don't need to turn there.

I'm going to be building a lot and doing the best I can. This is the first time I've shared this. But watch this.

Matthew 24, 36, Jesus' red letters. But of that day, he's talking about everybody in those. Matthew 24 is the most mascot, paramount chapter for the end times.

I would encourage you to go through it slowly and just really meditate, chew on it. And immediately following, I've been preaching this since the end of 2019, I sensed there was oil all over the virgins, the ten virgins. And I didn't know why until 2020 kicked us into a new era, obviously.

And the virgins pop on the scene. You know, Matthew 24 didn't just stop. And all of a sudden, Jesus said, let's take a lunch break, boys, and then right, you know, Matthew 25 later, he kept talking.

So basically, Jesus gives you the complete breakdown of the end times, and then immediately jumps into the parable of the ten virgins. They're totally connected, which says there'll be five foolish virgins, five wise that have extra oil, and they're all looking for the bridegroom. You all know the passage.

So anyway, Matthew 24, Jesus is building around the end times. Watch this. He goes, but of that day and hour, no one knows.

I can promise you some people that are real keen to the spirit are going to know the month of year, though. They're going to, it says the day or the hour. But as it gets close, I'm telling you, those that are real close to the bridegroom, nevertheless, not even the angels of heaven, the original Greek even says, nor the sun, meaning that Jesus doesn't even know the day.

But my father only. And then here he goes. But as the days of Noah were, remember, I'm walking through the arc being constructed.

So also will the coming of the sun be. And so I obviously come out of this dream. I'm walking in the construction of a modern day arc for our time, the days of Noah, northern lights are whipping, which are a representation of the announcing of the coming of the sun.

And I come out of it. And so I've been mulling through this for quite some time, want to build it and land it. It'll make a lot more sense tonight, how it applies, but also want to encourage you guys.

It's really on the Lord's heart right now that like we're in the last of the last days, you know, this arc was being built. And so let me take you back. You say, okay, well, what are the days of Noah? And I'm just going Bible here.

Okay. I'm not a, I'm not either, or I just love the Bible. I love the word.

And so watch this, what it says. You say, okay, what are the days of Noah? I know, no, I know the story. I know the, I know the arc.

I get it. But if you really intricately look at the days of Noah for what they stand out and what was representative of that day, the Bible's clear. Watch this.

I'll go to Genesis six, nine. It says this. This is the genealogy of Noah.

Noah was a just man, perfect in his generations. Noah walked with God. And Noah begot three sons.

Shem, it meant fame. Shem means fame, his first son. Ham means hot.

He must have been a stud. I'm teasing. It really means like hot as far as temperature warm.

I think he was probably born in the summer or something. They're probably like, man, thank goodness Ham's here. His name, he's hot, you know.

I think he was born in the summer probably. Japheth, beautiful, right? Three sons. But here it is.

If you would like to know about the days of Noah, because Jesus, listen, red letters, crystal clear. Jesus says, oh, you want to know about when I return? The days of Noah, it will be exactly the same. The days of how Noah were, you know, those days will be as though it were when the son of man returns.

The announcing of the coming of the son of man. So there's really two pillars that sum up the days of Noah. Real clear in scripture.

It says right here, the earth. So Noah, this is his genealogy, three sons. Fame, hot, and beautiful.

The earth was the earth. Also, sorry, was corrupt before God. And the earth was filled with violence.

The two main things you see, I'll keep reading that you see crystal clear. It wasn't very complicated in the word about the days of Noah is that they were very, very corrupt and violent. Okay.

And trust me, I'm not, it's not going heavy here, but we're just doing the word. We're not doing doom and gloom, but it's, it's so good. I love this.

Watch this. So God looked upon the earth and indeed it was corrupt for all flesh had corrupted their way on the earth. It's really wild.

If you read that slowly in its original text, it says the earth was corrupt before God. And so God looked down and sure enough, it was corrupt. He sits on a throne of justice and righteousness.

The Bible says in heaven, there's seven flames that burn before the throne. I believe he governs through them. The seven spirits of God, wisdom, knowledge, counsel, might, understanding the reverential fear they've burned.

They forever burned before the throne and he governs through them. So it's like the earth. He sees everything from his throne.

And so the, it says the earth was corrupt before him because he sees it all. But also he then, if you read slowly in the original text, he looked down and sure enough checked and yet it was corrupt. It says it three times in two verses and man had corrupted their way.

It was also filled with violence, right? God said to Noah, the end of all flesh has come before me for the earth is filled with violence. There it is again. So corruption and violence.

And listen, I know a lot of us, you know, there's these theologies that go around. I'm not trying to get into debate, but it's got to match up. How many of you know, it's got to match up to the word.

We've got to be people of the word, whether you like it or not. I just love the word. I don't care what it is.

You know what I mean? Jesus is like, listen, your last day ticket to heaven's martyrdom. Praise God. That's what you said.

Love it. I don't care. I'm just saying I'm getting a little more crazy just so you can, you don't have to follow me, but I just love the word.

All right. And it's real clear. If you look at Matthew 24, he's basically given us a real clear outline.

The days of Noah, the main two pillars that God saw in the word clarifies as violence and corruption. This is another key. It says the earth was corrupt before God.

So it doesn't matter if it seems corrupt before man. That never matters. Corrupt before God and man is a totally different definition.

What matters is how God defines it. You understand? And that's the say-so. That's where the weight is.

I think it's Isaiah 52 that says, woe to the man who calls an evil thing good and a good thing evil. That's what we're in right now. I'm just telling you.

There's some of the most twisted things that I can promise you are before God totally corrupt and man's becoming so deceived they're just calling wicked good. It doesn't matter what you think. Before God, it's corrupt.

Those days and violence. And so watch this. He says, you know, the end of all flesh has come before me and, you know, sure enough, it is filled with violence.

So I want to jump to this version, build a story around it that's wild, and again, do my best to land it for you guys so it makes sense being my first time on this. But watch this. I'm going to skip through the breakdown from Adam to Noah, and you see a really incredible thread of the times that lead unto Noah that, again, listen, Jesus could have picked any era, you understand, to compare his return to.

He could have said as it was in the days of Abraham, Gideon, David, Saul, Samuel, Eli. He only picked one. He said days of Noah it will be.

He used all kind of other parables, but he picked Noah's day. So you really study it out and watch this. Just follow me for a little bit.

You don't have to in scripture. But watch this. I'm going to skip through quickly so I don't bog you down too much with the word, but when Adam was 130 years old, he begat a son.

This is another beautiful thing. You'll notice that all the way through Adam had Seth. Seth had Enosh.

Enosh had Kenan, right? And they're all, if you're reading the original text, Hebrew, it says they begat, meaning they just, the offspring that came forth from reproduction was so-and-so. But if you get to Noah's father, it changes. It says Lamech was his father.

I'm going to explain. It says he had a son. He didn't just begat offspring and name him that.

He fathered a son. And I'm telling you, this last hour, the fathers, true fathers and sons and sons and fathers, the Malachi 4 is going to be paramount right now, leading to the Lord's return. True fathers and sons, listen, it's big.

That's a whole other teaching. But watch scripture. It literally shifts right at the end.

It says Lamech had a son and then fathered him. But watch this. Adam, 130 years.

He waited kind of a while, didn't he, until he had his first son anyway. Seth. Seth, 105 years, had Enosh.

And start watching this now. 130, Adam. Seth, 105.

Enosh, 90. You see the years getting less? 90 had Kenan. Kenan, 70.

You see them keep getting less. I feel like they were like, I don't know. I mean, I kind of, these women are attractive.

Let me, you know, I don't know. And things were going good. But watch this.

Kenan had Mahalalel. Sounds like tongues. Mahalalel, 65, had his first son.

You see it? It goes 130, 105, 90, 70, 65. Then watch this. It just matters.

That's all with where the days are going. Then all of a sudden it says, then Mahalalel, 65, had Jared. And Jared fathered his first son at 162.

You read that, you're like, hold up, Jared. You watch, you mess everything up. You know, everything was going good.

They were figuring out this marriage thing and having kids. And it was good. And all of a sudden, Jared pumps the brakes on everything and waits almost 32 years longer than Adam.

Well, listen to what the scripture records that was also pulled from the book of Enoch. In the days of Jared, this is where all the wickedness ramped up that really brought the conclusion to the days of Noah that the Lord is comparing to. And again, I know he's going to have to build all this, but it really matters.

So in the days of Jared, there's a book called the book of Enoch, not canonized scripture, not the inherent word of God. Okay. But valid enough that the word of God mentions it.

So I would say it's probably a little better than God of Wonders is written by Brian Garrett. I mean, get that one too, but you know what I'm saying? So the book of Jude alludes to the book of Enoch, meaning there's some stuff there. Well, sure enough, if you look in Enoch, Enoch says in the days of Jared, that was when the Nephilim came down on Mount Hermon and made a pact and said, they looked down and

said, women are beautiful.

We're going to go into them and violence and corruption hit the air. Listen, the whole thing with corruption and violence is just mankind merging with darkness. Always.

That's all it is. It's the increase of mankind yielding to the wrong kingdom. And then the byproduct is corruption and violence.

And that's listen, that's what's happening right now. I don't know if you realize that there's pockets blowing up and I'm way late to it because we don't even have cable television. I'm so cut off.

I don't even like Facebook. I'm just being honest with you guys. The only time I try and get on is with a community group.

I love them, encourage them, but I just and it's OK if you all like it. But man, it's just I want the voice of heaven, man. I want the raw presence of the Holy Spirit.

I don't need to hear all this regurgitated, you know, conspiracy anyway. Sorry, I'm going to start stepping on it. But news, don't care about it.

The newsreel of heaven's always ahead of the game, more accurate anyway. So just hear his voice. And so but I'll hear second hand.

And and, you know, obviously, you ask a lot going on right after Columbia. I have a dear contact. A lot of you have been to Andy.

A lot of, you know, they've been on crusades with us. We were on the phone recently and he the same thing hit there. I caught wind of it way late.

I was like, Andy, what's going on, Columbia? And he's like, man, we're locked down. He was having to go out, sneak out, get groceries and come back in. It was violence, corruption like you'd never seen before.

Cuba, I guess I just saw. No, I'm just saying you're seeing pockets sort of blow up around the earth. These are these are the days we're in.

It's corruption and violence. And I'm here to tell you, sorry to bust somebody's bubble, but that's not going to decrease. I'm just telling you the word to study the word.

Listen, if you back up in Matthew 24, Jesus Christ read letters, you can take it to the bank. He puts it up above his name. Heaven and earth will pass away.

Never this thing. Listen, guard us with your life. Joshua, listen, go deep, meditate deep in this thing.

Don't just memorize scriptures. Eat it and let it become you. And so Jesus says in Matthew 24, you back up.

He says the days will be so, so rough, so much so if they weren't cut short, nobody would survive. And again, I'm kind of like I don't care if my lamp's full of oil. I'm just I'm closer to Jesus.

I'm more single eye. And that's the company in this last hour. They're so single eyed upon the Lord.

Corruption, it's just they don't know any other. And that's what you see Enoch doing. Sorry, I'm getting off track.

And we may go a little bit later. Is that OK? Because I really want to build this. So, so, so anyway, you see the days of Jared.

That's what happened. The Nephilim came in his day. And I promise you, Jared was actually smart.

He sat back. He's like, hold up. You know what I mean? I'm good.

Like he probably waited and even married late. And I don't know if I want to raise kids in this. And wait until you get to Noah.

It's shocking. How many of you read through the genealogies real fast? I've done it a million times. Listen, the thread of the word of the Lord is in there too if you go slow.

Jared pumps the brakes because the Nephilim left heaven, made a covenant on Mount Hermon. They'll become one with women, produce offspring. This, that, and the other.

And wickedness really ramped up that you'll see later in chapter six. That's when the Lord saw. He says no.

It was getting really wicked then leading on to the days of Noah. Watch this. Enoch, Jared at 162 begat Enoch.

Right? Enoch got us back on track. He had a son at 65. He was like, listen, man.

I walk so close to God, we're good. You know what I mean? I'm a bomb of glory light. My kids will be good.

And he, at 65, begat Methuselah. Had Methuselah. Now we're getting real close, okay? And this matters.

Methuselah was the grandfather to Noah. We're real close now. Methuselah begat.

You guys want me to just say had a son? Begat's not, totally not what we use, is it? I've been studying the word. Methuselah had a son named Lamech. This is Noah's dad, Lamech, right? Methuselah, this is really wild when you start to study it out.

He was the oldest man in Scripture recorded ever. Methuselah, 969 years old. Ancient.

Adam lived 800. Seth, 912. Enoch, 905.

Kenan, 840. Anyway, all this matters. Methuselah, grandfather that Enoch prophesied about, is the grandfather of Noah.

He has Lamech. And watch the masterful, even numerology with God. You guys that are prophetic will love this with numbers and how he does it.

He has Lamech, father of Noah. And this is where, if you study the original Scripture, it says he had a son. He then fathers Noah.

Lamech was at the age of 182. Sorry about that. 182.

Methuselah, 187. Lamech, 182. Has Noah.

And he has a son. And he even names him accordingly. He says, he will bring us relief.

Noah means comfort or rest. And Lamech knew. He said, there's something different about him.

In this generation, days are so corrupt and violent. Noah's come on the scene. There's a call on his life.

He's going to bring us rest and shift us into this new era. And I'm telling you, watch how it lands with even tonight, prophetically for you and I. Although I know it's a corporate word and the timing we're in. But a total shift of an old era into a new.

And it totally points to Jesus Christ on the cross. How many of you know everything does in the word? Because the ark is Jesus Christ. The door on the side, it's all the Lord.

So watch this. Lamech, at 182, has Noah. Right? And then it says, Noah was born, this, that, and the other.

And Lamech lived. You've got to see this. Once he had Noah as a son, the Bible says, Lamech lived for 595 more years.

Okay? Watch Noah. It says, Noah, he pumped the brakes on everything. The days are so corrupt and violent now because they've been increasing.

It says, Noah was 500 years old until he had his first child. He pumped on all the brakes and walked with God, lived righteous, was perfect in his generation. But he's like, I'm not raising my kids in this.

I'm telling you, that's BSV, Brian's standard version. But you can see it. Jared pumped the brakes.

He's like, no, Enoch walked so close to God, he's like, we'll bring it back. But then it kept getting so wicked, Noah waited 500 years until he had his first son, Shem. He's like, not in this day.

I'm telling you, it's corruption and violence. But the good side to the new covenant we're in, we're going to not only have offspring to explode on the earth with the gospel and adopt. I say go forth the other way.

We're in a new covenant. But listen to where I'm building. 500 years, and then as you keep reading, had Shem, Ham, and Japheth.

And then at 500 years, Noah has his first child, right? Well, if you read scripture, it says that the flood started in the 600th year of Noah. Noah was 600 years when the flood came, right? And it says that Noah, his wife, his three sons, and their wives all got on the ship. That's eight people.

This is a new beginning. And I had it on July 8th. Seven is completion.

Eight is a new beginning. It's a complete new beginning. I had no idea.

I looked up the replica. They made one in Kentucky or something. I've not seen it.

But I look up that one. I'm just studying everything about it. And I look it up.

They opened that one. I had no idea they opened it prophetically to tie in with Genesis 7-7 on July 7th. Five years and a day added to when I had the dream as a sign.

But I'm telling you, this modern days of Noah that Jesus said we'll be in, we're in. People are thinking too far off and, well, it's not. I'm telling you, all that matters is, is it corrupt before God? And I'm telling you it is.

And I'm not doing a heavy thing. I'm doing an exciting thing. You'll see.

But also, how many of you know it helps to know where you're at in the timing of what's going on? And if it matters to the Lord, it matters to me. So I'm good. Londa, how are you doing? You need a seat? Come take mine.

Yes. Okay. Either one.

But so watch this. So where I'm getting at is Lamech. But listen to this.

I love this stuff. Lamech has Noah, like 182. Yep.

Noah's 500. He lives 595 years, meaning all of these godly men, Methuselah, Enoch, Lamech, they were around watching the ark be built. It wasn't just Noah.

But listen to God's goodness with this last company. Lamech lived 595 years right after he had Noah. And his total, listen to this, was 777 years.

That's the only triple sevens you'll ever find in scripture. Right there at his age. You'll see sevens all over the place.

Seven spirits, seven horns, seven churches, this, that, and the other. But look at God, the last man of the old company before he starts a new company in the new day and era. He just seals it off prophetically with even his age of the triple sevens.

Complete completion. And Lamech lived 777 years. Then he's done.

Then eight people get on a new boat. You understand? A new beginning into a new era. You know, I'm telling you something tonight.

A full completion on an old era is going to hit. And this new doorway of going in is going to happen. And so I was blown away.

I just, I guess me, I always figured Noah's out there with his, you know, jackhammer and just building a boat. But like Lamech's there. 595 years, meaning five years before.

Because remember the flood happened in 600 year of Noah. Lamech lived 595 more. He was only five years out from the ship being built, the ark.

Which scholars believe it took about 50 to 70 years to build the ark. There's one scripture why people try to bank on 120 where God says, man, we'll only live 120 years. But it's not accurate at all.

Because Noah had sons with wives. And he didn't have sons until he was 500. You understand? They had to be old enough and have wives even.

And then all eight of them got on the ship at the 600th year. Anyway, Lamech lived to five years before. Am I getting too many details with y'all? I'll land it.

But I love this stuff. So Lamech lived to five years before the flood. He saw the ark, I'm telling you.

He's probably walking around it with a cane like, Noah, that's a horrible joint, man. Get that, cut that straight, you know. That's not a true 45, you know, or whatever, critiquing him or whatever.

And listen to Methuselah, Enoch's son, grandfather to Noah. God was so good, he let them all live out their days and not get taken out by the flood. They all lived right up to it.

And Methuselah, I started doing the math. I literally pulled out my fancy iPhone calculator. I was like, hold on, 969 days.

And Methuselah outlived them all. He was still around. What was he doing? So I do the math, and from the time Methuselah, 969 years is right up to the year of the flood, 600 years of Noah.

So I looked it up, and scholars believe Methuselah lived up to two weeks before the flood. I'm telling you, you're going to go for it, Noah. You know the word of the Lord.

It's coming. And some people think even Methuselah got taken out by the flood, but that's not God. Listen, if you read the word, it says Methuselah lived to be 969 years, and then he died, like a week or two before the flood.

He checked out, and that was the last genealogy of the godly men left. And when they were done, God was like, okay, now, Lamech 777, that's when he said, I'm done. And he ends it, right? The triple sevens, it's the only time in the word where God's mastermind.

With his age, he tells everybody, I'm done. This whole thing up to this point, it's all done. Complete completion.

Then the eighth new beginning of Noah, his whole family, I'm putting them on a ship. And listen to this. I always knew this because of this whole prophetic thing that happened up in Virginia.

But second month, 17th day, waters burst from the deep underneath. The heavens opened. It's where most people believe the earth divided.

If you read scripture before the flood, it always says the land. And the land came forth. There's one unified land.

And that's why if you ever looked at the earth like, hold on a second. Why does South America look like it fits perfectly into Africa? Have you ever done that? That's likely because it was just crazy. The Bible says when the flood was done, the waters were 22 feet higher than the highest mountain.

And so the runoff and the collision and the plate lines, and I'm trying to sound smart. I don't know any of that stuff. But they believe that's where it happened.

And so, but Noah, there's so much more here. I'm just going to have to, yeah, we'll land it. But Noah, they hop in the side of Jesus Christ.

Listen, what's happening now, the ark I was walking through is the body of Christ being built. And they are the ark of this last hour. You know, the ark is Jesus Christ, right? Everybody knows that he's the prophetic sign.

That's why the door is in the side. There's so many prophetic implications there. But in this new covenant, the body of Christ is the ark.

And in this last hour, we've got to go deep in Jesus Christ first and foremost through intimacy and communion with him. And in community with the body of Christ. That's what's going to implement this new beginning right now.

I'm telling you, people that stay in the old, they're going to get swept away more or less. You understand? And this new era is coming. And so it says second month, 17th day, waters births forth in five months to the day.

Here goes God again with the prophetic. Five is the number of grace. You step into Jesus Christ, into the door.

He shut him in. And then he allowed five months exactly to the day to then to where the ship floated above the highest mountains of the earth, 22 feet. And then landed on the Mount Ararat, modern day Turkey.

And the day the ship hit new land to start new life, erasing the old era, Lamech, the last one of the triple sevens. He was the completion of it all. Because Noah was going to be the next one to carry over into the new world.

You guys get it? And that's the eight new beginnings. So you finally came to. You look amazing, though.

Love your hair. Glory makes everything good, doesn't it? That's awesome. Get her, Lord.

So you get into the ark and listen, five months to the day. Five is the number of grace. It's the grace of God, his goodness.

Listen, the mistakes, whatever it was in the past, the transition coming to happen. He's trying to us hide deep in the Lord Jesus Christ and in his body in this hour. You want to go deep in the Lord and deep with his body.

You understand? Going in that ark being built. The Lord's building. The Bible says the Lord Jesus Christ will build his church.

He'll do it. I love all the different programs. But his real church, he's going to build it.

And he can do it just fine. He doesn't need any help. We just yield and obey.

But that ark being built is his body in the earth. And listen, as corruption and violence increases, it's going to. We've got to go deep with the Lord and deep with one another.

While yet, listen, there's going to be a mighty harvest coming in. I believe that's the depiction of the animals and all. I know that sounds crazy.

But the great harvest running in. There's going to be a great grace and there is. There's a mighty harvest right now on the lost.

But listen to this. I was reading through the word. And it says to the exact day when the ship landed to start the new era.

Right? 777 Lamech, we're done with you all. And I'm going to even be so gracious as to let you all pass and live fully. And you can watch and coach and probably help hammer some of the ark with Noah.

The Bible doesn't ever say Noah built it by himself. It just says he built it. I bet Lamech was up in there, you know.

You know, some of them fathers, they're just too micromanaging. You know what I mean? Like, give me the hammer. You don't know what you're, you know.

And Noah's like, but he spoke to me, dad, you know. Lamech's like, I know, but you don't know how to use no power tool, you know. So with the ship out with the old era, new covenant.

And it really speaks of the return of Christ. That's why he says it will be in those days. And if you read in that context, he also talks about the people being unaware.

If you back up, you can see the violence and corruption anyway. But listen to the ship lands to start the new era. And the Bible says it landed on the seventh month, 17th day.

That's tonight. Yeah, I was like, God, you are something. He always does this with me.

So I'm really going to pray for the now, a mighty shift. Sorry if you see this on YouTube later. You missed it.

You can still pull the anointing into the future maybe. But no, I'm really believing. I want to lay hands on you guys and let the Holy Spirit move.

And a closing off, a beautiful completion. And a coming deeper into the ark of the Lord Jesus Christ first and foremost through intimacy. And deep with his word.

And there's something to do with a new chapter shifting and stepping. You know, the old being totally wiped out. And how does he do it? By his grace.

He let exactly five months pass. And that's passed, you know, prophetically for us tonight. So complete grace.

Only God can do it. And he completely wipes out the past. And then boom, you land.

Seventh month, 17th day in a new spot, new path, new chapter. Everything's brand new. Eight people get off.

You understand? Brand new beginning. Eight people. God's such a mastermind, obviously, in all of this stuff.

So I want to encourage you guys. I want to encourage you. I want to stand.

I want to pray with you. And to let you know that, yeah, we are, I'm encouraged. I'm excited.

Like, how exciting is that that God allowed us to kind of carry the last baton, so to speak, in the relay race? We're in this thing. You know, I mean, seriously, I'm walking through and the walls are being constructed. And then the northern lights whip through, which is prophetic for the announcing of the coming of the sun.

So nearer now more than ever. They believe 57 years it took to build the ark. And listen, these walls are up.

So I'm trying to declare a time or nothing. But anyway, yeah, if you want to just lead us, if you don't mind, Jack, you can dim the lights. I want to pray corporately for you guys.

Thank you, Lord Jesus. Just look to him. Thank you, Lord.

Thank you, Lord, for your word. Thank you for your spirit. I pray even now, everybody, under the sound of my voice.

For a great and mighty shift. Out with the old and in with the new. I'll tell you what, even now with your heart, if you have room, just step forward prophetically, even within yourself, into the ark of the Lord.

We step into you, Lord Jesus. To a new day, a new way, a new chapter. The eight of a new beginning.

Leading into the announcing of the coming of the sun.
