Now that I believe is coming to this church, to the church, to the evangelical church in Chile. I don't want to have this prepared, but this is burning in my heart. In 50 years, I've seen every conceivable doctrine known to mankind.

I've seen every spiritual movement that has come down the road. And I can't understand, when I see so many young pastors, I see so many that are being sucked in and drawn in and moved by these various doctrines. Never in history has the church been so shaken.

Never has so much false doctrine come out of the United States. But not out of the United States, but from South America and from around the world. And I'm telling you now, I stand here in the anointing of the Holy Ghost.

I stand here sent by God to prophesy to you, and to tell you, the first meeting, the first time I stand here, that your church is going through a trial. It's facing a trial of the very thing that the children of Hebrew

faced. This was a trial, not of their confidence in God, or their love for God.

You see, the king was not moved by their testimony. He was not moved by their holy living. He was not moved by their preaching.

There's one thing that moved him, one thing that caused him to turn the nation away from idolatry, that there were three men who would not be moved from the Word of God, from the Scripture by which they were living their lives, that would pay with their lives not to give in to some new kind of worship, some new doctrine, that promised them gold and silver and prosperity. They were tested by whether or not they were going to stick to the Word of God. Your country is going to be invaded with every false doctrine on the face of the earth, every new teaching, and they're going to gather men to themselves.

We have the prosperity doctrine in the United States that has swept millions into that. Let me tell you where this gospel ends, this gospel that God wants you rich. Now folks, I live in a nice home, and I drive a nice car, and I believe God wants to bless his people, but he said you don't have to seek those things.

He said you seek first my kingdom and my righteousness, and I'll add these things to you. But this is what it comes down to, that one of the most well-known prosperity preachers in America, on television, says you have heard of the coming of Christ. Forget about it.

Jesus can't come until you have your new car and your new house. This is where it ends. No more longing for the coming of Jesus.

No more yearning for his appearing.
