Wanting me to change it around quite a bit and how do you know that you really just there's a deep impression. There's a there's a yearning to to maybe speak On a different type of topic even using the same template and they're going to actually pass around An article I wrote uh, the battle cry of isaiah Looking back. I would like to change that to the battle cry of america Awake and arise we need to awake and arise And here's what I want here's what's not my notes and I hope it's okay um But I want to talk to you a little bit about Um how I got here Because I think it's important to everyone in this room because a lot of times we think Uh that god can't really use me You know, i'm here in bishop And somebody just told me I didn't know anything good could come out of lancaster But I know what they were saying that's a good I I I can see where they're coming from Um Ed, you know and Where we just think sometimes we're insignificant.

We can't really make a difference and uh what happened in lancaster california, I was born there actually a little town called quartz hill and barely graduate high school with a 1.8 And um But it really wasn't you know, I I did try but realizing later I had dyslexia And I just could not follow teachers. I couldn't understand what they were talking about Algebra way over my head world history boring. It's just nothing Clicked and I had to just really cheat my way through to barely graduate And then so graduating that fairly looked upon as the stupid one class clown And then so to fill that void I turned to alcohol Uh for many years in my early

teens or late teens actually And you know, obviously we all know that's not fulfilling But and then working in construction Hello digging ditches and God really begin to just break me and humble me And so with no education no really background other than hard work And I think kids need that nowadays I remember when a man's word was his handshake if you can believe that we didn't have contracts Back then growing up with my dad watching him work.

He was from the farms of oklahoma And so would never ever dare Come up here and speak to you speaking in public You know just embarrass and sit down and so the least likely What happened? Well, it's called encountering the power of the holy spirit It's called encountering god And I believe a lot of people though. They know god. They're not completely abandoned to him and filled with the spirit That's where it comes from and michael michael mentioned the boldness.

Well, the real the real shane eidelman up here would be an embarrassment But it's the spirit of god That gives us that boldness and we just got back from an event with I don't know how many of you follow charlie kirk with turning point usa in san diego And my my wife and I were down there they had me on a panel talking to this this big ballroom of pastors And I and I said the same thing that we have to have boldness but brokenness If if the lukewarm carnal church has slain its ten thousands or thousands its arrogance has slain its ten thousands And you can be a mean angry pastor and you're not going to have the the anointing of the holy spirit upon your life And then you can be carnal and lukewarm and you're gonna you're gonna be quenching and grieving the spirit so that that desire to find that balance and I see so many angry pastors and and Some of these guys are my friends that you follow not top names I'm, like dude, you gotta you gotta humble yourself before god does and and and they're not really You know, they're not really full of god's spirit. They're full of haughtiness Not holiness and arrogance and then of course We know the other side the woke culture that i'm really fighting against in la county and woke is just another word for political correctness I don't want to offend. I don't want to upset.

I don't want to really go there We're just supposed to love people. Well, yeah, but are you offending god by your silence? Because if we're not talking about things that put jesus on the cross the blood of christ judgment repentance Uh to me that's that's a severe A severe deviation from god's word and they're trying to be popular and when you do that, you can't be powerful You either so I want to encourage you if you you live up here live down the down the freeway live wherever God can't really use me. What am I doing up here? I'm here or down in bishop or wherever God just needs you surrender to him you plus god is the majority So god took someone like me with my background and broke me and broke me and broke me let me tell you That one reason I raised my hands up here.

Let me tell you um, this might come not surprise to some of you if you follow the ministry on 88.5, but I when I was growing up in construction a lot of steroid use bodybuilding Fighting all those kinds of things. I would go into church and I would laugh at those people raising their hands All those silly charismatics Oh my lord lord, that's for women and children And then when god started to break me And you sing that song wounded for our transgressions that cursed On a tree who died for our sins amazing grace how sweet it is it saved a wretch like me I should be dead. I should be on my way to hell acdc song.

I'm on a highway to hell I used to used to listen out with the jack daniels between my legs going 100 miles an hour And that's where I should be So shouldn't we be the most excited worshipers on the planet now, I know there's different, you know, i'm more conservative You know, but I I do it to just remind myself I will humble myself before man and not be embarrassed by what god has done in my life And lord, I give you all the glory all the credit. You broke me. You've humbled me you filled me And so he just I I thank so

many of you for For for loving the radio station how the messages have impacted your life, but you have to know it's not me It's god working through someone who's submitted to him And that's that's what many of you need to do full surrender.

It's not optional Full surrender and even in that there's not perfection I I still struggle with attitude adjustment. Anybody have a hard time getting to church with kids? Just me Okay, we filmed a short video on instagram. You can watch it afterwards And I and and I said well, this is the easiest Uh time it's ever been because it took us Two minutes one mile so that wasn't too bad the kids weren't acting up But you know the challenges of life and and of course pride and and of course struggles and all those things But god is looking for the heart that submits and surrenders and gets back on track and repents and falls forward And wants to be the fullness of his spirit And so that's actually where 88.5 came from.

I don't know if you listened in 2017 But they contacted us and said hey We're selling the station and just going to let you know your program will be off the air And so so okay, and so i'm driving. I remember the street. I remember the location It's probably two three in the afternoon and I said well that stinks Oh, well, and it was like just this this thought came into my mind.

Why don't you buy it? Yeah, okay you know and and i'm careful because it's so this is such a An interesting topic. This would be a whole nother sermon But I believe the gifts and the power of the holy spirit are still available to us today I believe god can give us prophetic words But you need to put a seat belt on sometimes you you know It's not if it's not if it's odd, it's god isn't biblical. It's not weird.

Holy spirit empowering me is not weirdness Actually, if we want to get really biblical the number one fruit of somebody filled the spirit is boldness to proclaim the truth and so that Comes out and so i'm i'm open but i'm cautious because i've grew up and I preach at baptist church is very conservative I preach a very charismatic and very it's like You know, and so i'm i'm just I love god's people because there's diversity in there as well And we need to stop being wrongly judgmental You know some charismatics need to put a seat belt on some conservatives need to step on the gas pedal i'm gonna get off that topic because So anyway long story short I'm driving. I heard them like oh man lord. You've got to be kidding me I don't even know what's involved and so I contact the station.

It's kind of funny. I joke with him I haven't in a while, but he's like well, we can't sell to you. You don't know to run a radio station Well, i'm like, well, that's a good point And so i'm just praying praying for probably eight months six I don't know and I said, you know what i'm just giving this up because this is ridiculous.

This can't be god. I how i'm Busy i've got five kids 17 to 3 Running the church running speaking nationally writing articles. This is whose idea was this anyway And so two days later I we get an email or I get an email from the office and they said hey There's this guy here.

Oh, I told my wife I said I can't I can't manage a radio station So I I think I might have missed it on this one I don't know what that was all about And so I get an email and i'll never forget it I've never got an email like this before i'm never gonna email like this again But she said hey shane. There's a guy stopped by He is he's thinking of moving here and he manages a christian radio station Well So today he still he has walked us through all this he's but he never moved out here He lived in lives in minnesota. He was able to do it all remotely.

And so oh, there's that one hurdle and then i'm still like Nope, there's no way like this is just too big of an undertaking Because there's a lot to work with the fcc And tower and transmitters and engineers and a lot

of things that that i'm learned learned through the process had god showed me Then what I know now I would said no way And he often does that he doesn't show you Everything you're going to go through He just shows the fruit and then you walk and then you go through all the challenges that get you there but um, so we we I was still praying because um, It was under contract with another buyer a mexican radio station hispanic radio station, I guess in this day I should Pronounce things correctly or get a woke email from someone And I love all ethnicities. That's what's funny. I love we have my associate pastor's a black pastor He's filling in for me, uh the next few weeks And another rabbit trail.

Sorry. I've got a lot of rabbit trails So i'm driving I get to church. I say lord Let me let me meet someone today that has been blessed by that radio station Because it went off the air for a while And let me let me hear from someone who's been blessed by that And I know I just need this confirmation look because see I trust god.

I just don't trust shane idleman So, I don't know these thoughts that come in, you know, sometimes a good thing isn't always a god thing Satan, I believe can can shoot fiery darts your own ego can can plant seeds And so his name was walt I said walt. How'd you hear about the church goes? Oh, you'll never forget this I was so blessed before on that radio station before you went off the air that really changed my life. I'm like, oh my goodness Wow, so long story short.

We moved forward god closed the door on that escrow opened the door to other escrow And we just the financial was there I mean it's a good seven eight thousand a month to run both radio stations You know if you look at engine the southern california edison cost transmitter cost And at least twice a year people email say you're ready to sell bishop yet you're ready to sell bishop yet It's like no. No, we're not selling bishop And so just your encouragement my point was I guess I could have got to this 10 minutes ago But to be encouraged i'm encouraged by the fact that so many of you are encouraged by that radio station Because you don't hear from people we don't know And so that that really is a good reminder that god was had his hand in that still had his hand in that and I don't really I choose some of the programming and different things but a lot of times We have programmers that connect. I don't do all that kind of stuff.

Just the just the The main overseeing of everything so that's how we kind of got here. I want to encourage you I don't know again. None of that's in my notes, but god can take what you consider.

Nobody and make you somebody Actually, he uses the least likely And and i'll when I travel and sometimes speak and people are like, oh, what seminary did you go to? School hard knocks Cemetery, I don't know about that one. But there's but my point is, um when god calls you And of course you want to educate yourself read theology. I love theology still do today And but when god calls you and he will begin to use you in your sphere of influence Whatever that looks like and I I didn't choose this calling it chose me And in your own life as well, you could you can make a huge difference up here Or where you live just in your home in your community on your street And a lot of times I still feel in california in los angeles county during the lockdowns You know, that was a little Interesting, uh, we we just shut down like everyone did for just a little while and then a friend of mine Maybe you probably follow jack hibbs texting me.

He said what do you think? I'm, so we need to open asap. And so we set a date. We had some conference calls and we opened The church and we uh about 200 people moved out of california from our church during the last two years But the church tripled in size Financially increased as well people but also people left Because they were you know saying we weren't loving our neighbor and i'm like i'm trying to but i've got people hooked to addiction brutal marriages adultery and pornography Suicide when's the church

supposed to be the church? How do we know we're not capitulating? And so and when you look at all the the the shenanigans I like to call it Then you know, I was following the numbers and friends of mine who were nurses and ucla and different like shane They're they're doctoring these numbers.

They're putting all these things down. That's not true And and so we just used wisdom and so we didn't step out in a spirit of rebellion But of a desperation to honor god in his word It was amazing what god did and it was not without its challenges And I know we me and my wife had a serious talk on okay, this could result in possibly getting arrested and Because they were I don't know but la county they were clamping down, you know Governor newsom who you need to pray for don't mock just pray for him and his wife and his kids And um, I know it's hard sometimes but they were they were saying, you know, no singing No church, it's like just pushing down and I remember The department of justice under trump sent him a letter and said you will not stop the churches They are essential. So that kind of gave us a little fuel to say, okay, you know, here we go in la county We opened up at the stadium la county said, you know, there's no singing and I want you guys 12 feet away And and so we just i'm sorry.

I can't do that and see the truth will offend but our attitude should And so the boldness comes we can be gracious and loving and understanding but still hold the line and say this is perversion our culture We're not allowing that in the schools. This is not right. You will not silence the truth Where you just stand still Stand still and hold the line and then god honors that god gets behind you on that and so out of that came you know the church staying open and Like michael said the media presence and they asked me to speak at the turning point usa and then rob mccoey I spoke at his church.

He spoke at our church. And so a lot of these pastors banded together and what you need to know is law the pastors we ran into throughout the united states, there's a there's a a I don't even know what the right word is, but there is a holy Indignation, there's a righteous indignation that god is is moving among his pastors and his people There's a a sense of revival because if you've heard me speak, you know spiritual awakening at this point is our only hope The titanic has been hit 2022 great 2024 Whatever. I mean i'm all for godly leader godly legislation.

As a matter of fact, we realize just how important leadership is During covid if anything it showed me how important leadership is who appointed the three supreme court justices that got roe v wade Overturned who who secures our borders who who appoints christians to public office? So I don't care if you don't like the person we're not following a man We're shaping a movement and so and we saw how important this is to godly leadership And how far our nation has drifted from the truth? And so the title of the message today Took me a while to get there what I want to encourage you with is the battle cry for america Awake and arise The battle cry for america awake and arise. I know some of you are thinking I wish the sermon was over soon Was something not everyone does i've learned that over the years And I will say this here. Here's here's a test This is what I pray about this morning if I should say this or not, so I'll let michael can handle the damage later but Here's there is a quick test to take To if you know, you know, am I lord? Am I fully surrendered? Am I filled with your spirit? Do I want more of you? There is a quick test.

Did you want worship to hurry up and get over? Did you want more of it? Let that penetrate your heart Is is church on the back burner? And all your other priorities on the front burner Or is god on the front burner so you can gauge spiritual health I can gauge your physical health by your appetite people dying of cancer Dying of other diseases their appetite's gone And so if your appetite for god is fading But there's no appetite for god. There's no desperation. There's no i've got to work.

I mean when I heard 50 hours of worship. I'm like, how how can we be here some some of those times? How I mean how you might see there's my heart beats for seeking god because there's a desperation There's a in these dire times just coming to church now and then and maybe saying a quick little prayer is not going to cut it God's got to become your all-consuming passion. You're all-consuming desire.

I need god. I need oh god Would you run the heavens god? Would you open up and come down and visit your people because we're desperate our grandchildren our children are exposed to so much perversion ungodly legislation So many politicians are lying and deceiving and and if we can't trust the fbi, who can we trust god and god alone? Don't get me started I might go down a political rabbit trail But i'm so tired of people saying we shouldn't get political We just need to preach the gospel my lord The gospel affects all areas of life. It has a lot to say about murdering innocent children It has a lot to say about gay marriage.

It has a lot to say about Transgenders teaching preschoolers about being a transgender and choosing your own sex my lord If not now when if not who you when are you going to wake up? But am I not just preaching the truth? When are you going to wake up church? This is not time for playing games And I didn't come here to tickle the ear I came here to challenge the heart That's why we gotta get guys. We gotta get desperate That's why a battle cry A battle cry is our is our only hope right now. What was a battle cry? It would summons armies to war You know when the philistines heard the battle cry of israel, they they the bible says they literally shook What is that cry in israel what is going on the god of the god of years has visited them The the battle cry that shook jericho.

I mean, there's a there and when you get christians again, not arrogance Boldness underscored with brokenness And I read something 20 years ago when I first came back to the lord aw chozer said before god uses a man greatly He must hurt him deeply and I finally over the years realized what that means God's got to humble you and break you Maybe that difficulty you're going through right now is to break you stop fighting it Stop blaming the other person You know, one of the number one thing we see in in counseling marriages is the blame shifting in the blame game I said have the solution right here. Just drink of the living water. You will never thirst again humble yourself I don't care if you're right.

You're still wrong in your attitude You have the answer and how many people don't want but you don't know my spouse You don't know what i'm going through And we can no longer be shamed into silence You know what shamed into silence is words like homophobe People don't you know, we have people struggle with same-sex attraction our school at our church. We love them. We they're at events We're no different than struggling with any other sin however We love the sinner, but we fight the agenda That's the difference.

That's what people don't realize. I love the moms who just had an abortion We can pray with her we can help them, but you fight the agenda and they try to shame you into silence homophobe white ring White wait right wing white nationalist. That's my newest title.

Whatever that means. I don't have any clue I guess because i'm bald But she shut him up shut him up But when you know who you really are that stuff shouldn't bother you And when you speak the truth in love, it will hurt it's supposed to God's word is not like a feather It's like a hammer. It's like a fire that devours.

It's like a sword that pierces So when you speak the word of god with the spirit of humility and gentleness the word of god goes through and it crushes pride It slices through arrogance it'll cut down the the demonic realm. That's the only way this is how I fight my battle on my knees Fasting before god praying and pulling down heaven. I love having church I love preaching sermons But most revivals are sparked in

the prayer closet as men and women seek the hand of god You will see more breakthrough at this church from 50 hours of worship than five years of sermons And michael knows i'm not putting him down i'd say same thing about me and my church When god radically meets you through worship and prayer and fasting and breaks you Then you come out of there a spirit-filled believer And that's what we need the battle cry But a heart cry must precede a battle cry Many christians are angry, but they're still arrogant They're wound up but they're not worshipers and they're haughty but they're not holy Is that not the truth? And I and I I feel your pain i'm right there with you.

I'm, oh i'm so angry. I'm gonna post something on facebook today If if you saw what if you knew what was going on up here I would tear twitter and facebook and instagram apart And just just in your face, but that's not You know, I gotta Um balance it with love and grace and make sure you know, is this edifying is this going to build up? But there is a time to strengthen Uh and equip people and encourage people another friend of mine sean foy. You might follow him.

He's having all these worship events. Um, He was he was down there as well, but he's very bold And and posting those things and I think it's good We need that to show, you know, if it's done in love with the right spirit, but who said jesus? Did you know jesus didn't turn the other cheek when he was hit? You need to all think about this Jesus did not turn the other cheek when he was slapped What did he do He said why'd you slap me what evil have I done he confronted See turning the other cheek we err on the side of grace That's my that's my that's not my demeanor is to fight back. I'm gonna err on the side of grace I'm gonna turn the other cheek i'm 11, but there comes a time where I will confront you I will confront what evil have I done? Why have you slapped me? And we forget that he made a whip he made a whip Can you imagine me coming here with a whip? I would never be back here again And pushing over the seats why why Zeal for your house has consumed me.

He said zeal for I'm I can't see this in the house of god. This is perversion. This is wrong This is mockery and that zeal for my house guy He said has has eaten me up and he begins to drive out the money changers Actually, did you know the money changers should have been there? They were exhorting they were they were taking exorbitant amounts of money.

They were taking advantage of the people The money changing had to take place so the people could make their offering But it was their heart And so I I i'm careful with this topic because I want people to leave here Yeah, pastor james, I can hit people I can just be angry. I can mean no, that's not no no But see we've got this view, especially in the woke culture Maybe i'm preaching to the choir here, but just just passive nice mild manner. Jesus.

Don't say anything Don't say anything wrong. Don't upset don't offend. He offended the entire religious system He offended everybody from the pharisees to the sadducees to the religious leaders you whitewashed tombs You are nice and clean on the outside but your dead man's bones in the outside you run you go travel land and sea and when you win one Proselyte you make him twice as son of hell as you jesus He spoke more about hell than heaven And it just it just really really infuriates me when people use him To hide their cowardliness And I know it's a hard message and I make no apologies every time I give this message at least Somebody doesn't come back to the church.

Oh that guy He's too hard what's wrong with him? Why is he so angry? Oh, no. No, you're confusing passion with anger Now there's a little anger. There's a little righteous indignation.

Thank you. That's okay. Jesus had it Did you know one of the characteristics of god is Is anger the right kind of anger see we always god's attribute is love I think I don't know what that attribute.

I don't even want to say the number but it's like A hundred to one where his attribute of holiness is mentioned Way way way more than love our god is holy. Holy. Holy is our god the angels even cry Holy, holy.

Holy is our god the whole temple these huge posts 26 feet tall and six feet in diameter They shook by the holiness of god. Holy holy is of god and isaiah said my eyes have seen the king of glory I've been radically changed from the inside out and that's what some of you need You need a holy ghost fire underneath you so you can have the passion and boldness of the spirit You can you can confront a dying and dead culture and say this is wrong yet still be willing to die for that culture It's it's a dichotomy. It's such an interesting thing.

And how can I speak so aggressively yet love those stuck in sin? It's the work of god's spirit in your heart Halfway through page one. There's four pages. So what time we have to end? What time do you actually really end it's okay 12 30 No, i'm not gonna I know you guys are you well, here's the deal when you're being when you're when you're You're being encouraged.

You're on the edge of your seat. You want more You're not in a hurry for things to end or worship to get over and that's a problem. We have I spoke at a Uh, so many different churches one was i'm not going to mention the name or city but it's a mega church And they said, okay.

Here's your timer You got exactly 30 minutes. We've got this song is i'm not kidding four minutes and 23 seconds Baby dedication a minute and a half this song is four minutes and 32 this and then here's your here's your here's your 30 minutes And and and we might have to cut into that if baby dedication goes along and here's our one closing song Then we got to get them out of here Why Why is that because the attention span oh no if your holy spirit fills your attention span is going to be a lot longer Than what we're not trying to conform to the culture. We're trying to conform the culture to god And so and I would just encourage you be plugged in at a good church But there has to be time for pressing in and when he said worship goes 45 minutes before the mess i'm like praise god You don't see that very often Because there's that now Well, I won't get into that I know the older crowd why I like the old hymns.

I do too. But did you know the old hymns used to be new hymns? When they are first written The biggest war we've ever had in our church is the worship wars. I I didn't even know anything existed worship wars But the both sides are actually right The the older person who walked down the sawdust trail of billy graham crusade and heard and heard those wonderful hymns the old rugged cross and nothing but the blood and amazing grace that that that just Really? Oh that that that's that's god moving.

Yes, it is But don't discount the 20 year old Who just came to the lord eight eight years ago. I'm worthy of it all I can't sing but you know and and and that that's my that's the kind of music and see on those two sides fight instead of complimenting each other And understanding we we won't relate now I can easily go I can easily juggle both You get me to a choir and amazing grace is going and and worthy is the land with the right vocals instrumental and anointing And and even acapella sometimes. I remember one of the best youth conferences we ever had and and now she's on our worship team But she just opened with a guitar.

I don't even have an amplifier and it's just a guitar and she's like My I mean you feel the chill, but you know, just the anointing of god was there And then i've got the emails oh you can't worship god with drums

and guitar i'm like where where's that in the bible Well, see here's the thing though just because it's not in the bible doesn't mean it is in the bible as well not to do There's a lot of gray area I mean I get to psalms and rejoice with the trumpet and the harp and the flute and the I mean there is expressions of worshiping god And so again, it goes back to humility god, you see how important humility is I would say 90 of the division in the church is over Non-essential things where we don't humble ourselves. It could it be that god gave us division so we would practice humility Unless you walk like me talk like me believe like me And I really confuse people because I have the john macarthur study bible and the jack hafer study bible You can look it up online and see who those people are later if you want But isn't that true and even this week people want to label so what what what domination what do you what does the bible say? What does the bible say? I'm, not sure what calvin said, but what does the bible say? Armenian joseph armenian. What does the bible say? What isms? We want to put isms on now and get you in a box Now I can judge you And I have one big passion of mine is to get the church united The real church not ecumenical movements of falsehood But the real church to put down differences the baptist has to worship with the charismatic And stop judging.

Oh that church Oh, they're too. They're too crazy. Well, you're you're too you're you think they're a circus you're a cemetery I i'd rather be a little bit lively And remember paul wrote first corinthians on the gifts and use of the the holy spirit To living children need rules dead children don't So if god's not moving here, we've never had anything like that happen.

We've never well, you better be are you alive spiritually? Yeah, you can tweet that one out later But I often hurt the feelings of lukewarm and I also hurt the feelings of arrogant conservatives And I love both i'm just what's the bible saying? I see so much maybe he's a pastor Maybe this doesn't mean a lot to you, but I see so many little People at conferences or bickering, you know, we got a little tribes, you know, i'm i'm five point calvinism I'm four point calvinism. Well, i'm not a calvinism or i'm all millennial well, i'm pre-millennial i'm post-millennial when's the rapture coming and and and and your pneumatology is different than my pneumatology and What group do you want to be with and see what how's the holy spirit going to move in a divided group? Have your passion for non-essentials like here's what I believe and here's why But so many people want to argue over the non-essentials, you know what that is it's called pride pride and it hurts a bit And if you're if you're convicted about this, you don't like what i'm saying, maybe you might need to hear what i'm saying You will not see revival corporately or individually unless you get rid of this area of division Jesus prayed let them be united like we are And you know, I just I I don't I can't worship like those charismatics, but I still love them I can't I can't be dead like the conservatives, but I still love them and you find I guess I'm conservative I guess people charismatic saying i'm too conservative And conservative say i'm too charismatic And so you they want to put you in a box Another rabbit trail. There's so many rabbit trails But let me get to isaiah awake and arise many of you know in isaiah 60.

Um The verse talks about awaking and arising but there's so much before that in isaiah 57 He says you sons of the sorcerer and offsprings of adulterers you inflame yourself with gods under every tree And so isaiah is rebuking the people See, we forget about that. Sometimes. Oh, that's kind of hard.

That's for that's for the old testament We don't know god still has prophetic voices. God still needs to wake up his people god still sends watchmen to warn Are you ready for this one the number one trait of a false prophet in the bible Number one trait you can spot it. You can still spot today.

You ready for this one? You might want to write this down not warning Saying peace peace when there's no peace False prophet will be coming up saying hey guys Nothing to worry about all of you're a-okay. We're doing great 63 million babies born Not big deal lgbtq agenda is being forced down people's not a big deal. We're all good god loves It's just god is love.

You're all fine. Don't worry all of you everyone and there's no warning That's the number one mark of a false prophet jeremiah 23 read it tonight. God said I didn't send these prophets yet.

They ran I didn't speak to them yet. They spoke But had they truly stood in my council what my word says they would have turned this entire nation back to me Is not my word like a fire is not my word like a hammer that devours But you have perverted the words of the living god by not warning But here's the thing we shouldn't be excited about that's where the word bible thumping, you know pulpit pounding in your face angry That's where that comes from. That's not good either But there should be a do you see what's going on? Shouldn't there be a righteous indignation they're getting ready to I was just talking to jack jack Gibbs is uh, the person heads up one of their their political activism, but proposition was a prop one I mean, it's almost it's going to be uh in fantasy even after birth and what they're trying to push and and shouldn't this shouldn't This now I know maybe that's not your calling you're gifting.

You're more on the mission field. Thank god for that Praise god for that But there should be a righteous indignation that wells up at you you look at your children I look at my children I go and 20 years from now. I don't know what Where you're going to be And that falls directly upon our shoulders the silent pulpit is not god's pulpit The silent church is not god's church The reason our nation men the reason our nation is in the predicament it is is look in the mirror Men have been given by the ordained by god to watch and lead their families lead the church God instituted the family ready.

Here's another bombshell three institutions the family the church Are you ready for it? government Okay, I got in there That's god's institution So no wonder he wants to get the church out of there Now I don't think we should be in their political activism camp I got it all that but but now the you're talking about creating life simply to destroy it stem cell research You're you're talking about aborting you're talking about You're talking about legalizing perversion and god's word has something to say about these issues Silence is capitulation Because when you don't say anything you say something and you say it very loudly and very clearly And so that's the divide you're seeing in our nation all these churches who want to remain neutral Or politically correct the problem the real reason is they haven't spent time in the prayer closet seeking the heart of god They're not filled with the holy spirit. So they're not filled with boldness Now they might not do what I do. They might do something else and there you not talk about a lot of these issues But there's got to be a righteous indignation of and of warning the people Why did god call the prophetic voices? isaiah jeremiah Daniel hosea joel amos obadiah jonah.

Micah. Nahum abacus evanai. Zachariah.

Haggai. What was their whole role? To go throughout the villages and say god is love Here's a flower And again, please understand i'm not minimizing that this is why it's a hard message because you're i'm not minimizing the love of god Thank god for the love of god. It's grace.

It's brought me here and it's grace. It'll take me home I love the grace of god I love the mercy of god But because it's a grace that god has shed abroad in my heart That now I need to warn others to turn from the wrath that is to come and to turn a nation back He says I would rise my right before the fall of jerusalem God said I would rise my watchmen up early and I would send them because I had compassion on my

people But they mocked my messengers despised my word and scoffed at my prophets until the anger of the lord arose against his own people You just spend time in god's words you're gonna you're gonna see all this The problem is you don't spend time in god's words. So what people not you Generally speaking.

Okay. Sorry, but but they do they that guy's radical No, i'm just preaching the bible that you haven't heard true bible preaching in so long that you are morally offended when you finally hear the The brutality of the old testament the grace of the new testament the true heart of god that god is anger God is love god is holiness. God is righteousness And you start to see that that god is a god of justice But he's also god of love and holiness and and it's just it's just and not one attribute is above the other He it's it's all of who he is And when you go to when you're really in a living vibrant church service Did you know that the early church might mock many churches today? Can you imagine the early church hey Are people getting healed? Oh, no, no, I think last year bill I think bill last year Yeah Or god doesn't do that anymore.

God doesn't do that anymore Somebody's speaking prophetically in the lives of someone else. No, no, no, no, we don't do that anymore But see we have so dumbed down what the new testament church was That now when we try to to be the new church or preach like the old testament church word labeled extreme And it's not extreme I challenge you just open your bible genesis start Go to revelation Keep going through it. Keep meditating in your heart and tell me if this doesn't resonate with you Because we're either filled with the word of god or we're filled with the world And we crossed a very dangerous line years ago and and and isaiah's day as well.

Their blatant sin demanded a strong rebuke Parents, you know, doesn't a strong rebuke often mean you love your child not hate your child Won't be the parents says I don't care let them do whatever they want That's not parenting. That's child abuse And then god I like this verse when you cry let your idols deliver you America when you cry let your 401k deliver you Let your retirement deliver you let these things you trusted in deliver you And then we keep reading in verse in chapter 57 a very encouraging invite this is so encouraging it's it's one of those scriptures that I don't know when I read it. It It just leaps out of me for thus says the high and lofty one God is speaking to his people thus says the high and lofty one who inhabits Eternity he dwells god dwells.

Are you ready for this? God will dwell with this person who has a broken and contrite heart to revive the broken to renew those who are contrite in spirit God says I want to speak with you. I want to dwell with you. I want to guide you I want to lead you I want to fill you but you're too full of yourself You've got to humble yourself under the mighty hand of god and be filled with the spirit of god and those who are desperate What cry what parent would not answer the cry of their children? You see your child mommy daddy help help You're just gonna hold on let me wait till the service is over.

Hold on be about a half hour You're gonna break through that window You're gonna break through that back door and find out what that same thing when god hears the cries of his children With a broken and contrite heart crying out to god lord Please visit your people rend the heavens that come down bring us a measure of revival in our bondage We need to hear from you. We need to be touched by you God can change the course of human history through humility We must repent of apathy repent of pride and repent of prayerlessness You need to remove the things that are distracting you and pulling you away from god What is distracting you and pulling you away from god? Let me tell you the number one thing right now Here we go Hold on guys. I'll get to this later I'm, amazing how many people know exactly what's going on the news, but not what's going on in god's word And then chapter 58 cry aloud Cry, I wish pastors would read this verse Cry aloud.

He's talking to isaiah cry aloud and spare not lift up your voice Like a soft quiet bird Harmonica, that was nice harmonica Right, she's crying lift up your voice like a Trumpet what would it can you imagine a trumpet right here at full force? Because that's what you need see in these dire times elevator music's not going to cut it You need to hit the alarm clock and turn up the volume and wake them up He said go and warn my people wake them up like a trumpet declaring the truth of god's word So when you hear the volume It's really out of the deep recesses of the heart that the volume is turned up The passion is turned up and if somebody's on their way and you see you know The child is your child is going to walk into a snake den or something You would stop you would open that window and you would cry out see the magnitude of the consequences Is what comes out of the heart when you see what exactly is going to happen? Cry aloud lift up your voice tell my people their transgressions in the house of jacob their sins But then the people said why isn't god listening you ever been there? Why isn't god hearing we go to church? Things exe say that but go to temple, right? We go through the motions. Why isn't god hearing my prayers? We're even here we go We're even fasting Boy, they pulled out the big guns for that It's like pulling out pulling out 10 gauge for your geese hunting But god says you're going through the motions You have to remove the wickedness from your life And I know that word sometimes you think wickedness That wickedness really means just something that Contradicts the word of god or the nature of god. They call that wicked look it up in the hebrew dictionary Something that opposes the will and ways of god So there's a removing the wickedness going through the motions Then he said once you get your heart right then your light will shine then your light will shine Maybe that speaks to some of you this morning You've been praying you've been you've been asking god, but there's something in your heart something in your your heart that has grown hard and callous And god says repent of those things then my light will shine Then your light will shine And the reason I I know this is a hard topic of this this word repentance I've seen it so many times.

This is probably the number one reason why people don't come back to our church And it's the number one reason people Come to our church. Can you believe that? As god is my witness you can ask my wife. Oh if somebody come up and angry How dare you talk about those things in their lead and then another person come up crying weeping You almost have to hold them up.

Thank you for talking about those things What's the difference the human heart? The puritans used to say the same sun that melts the wax is going to harden the clay And so praise god i'm just a messenger i'll let god Melt the wax or harden the clay But that's why this this repentance either like oh I need to hear that I need to turn back to god I need my I need my light to shine again And then he goes on to something it goes on to say something very important. Then you'll become repairers of the breach What if you break that down what happened? There's a breach in israel the northern kingdom the southern kingdom were divided There was a breach in israel security fortitude god was no longer there covering god was going to judge him But those persons could actually repair that breach repair that damage Those who filled with the spirit of god do via repentance and humility And then he goes on in chapter 59 behold The lord's hand is not short that he cannot save nor have his ear heavy that he cannot hear but your Sins have separated you from god so that he will not hear you And then chapter 60 He gets into that great christened. Now.

It's interesting with isaiah They're not necessarily written written in an order chronological order, you know Some of the prophetic voices are all over the page, but you see this warning in isaiah That they're warning, but there's an encouragement He warns he blasts them for a lack of a better word He just lets them have it but then he says be encouraged god dwells with those who have a broken and contrite heart In other words have your heart break and let god rebuild you And then he says after all of this Arise and

shine arise and shine for your light has come and the glory of the lord is risen upon you After you've been beat up and built back up by god. I love that He will call you cause you to arrive. Do you know i've been beat up by god? I've been smacked down by god.

He got out the big 20 pound sledgehammer And he broke and broke and broke and continuing to break and break and break And then that's how Women how many women put on perfume today? Oh, not many. Okay. That's a good different analogy Okay How where did that perfume come from? The flower petals being crushed Olive oil The olives were crushed Same thing has to happen the human heart crushed the arrogance.

So the beautiful beautiful scent of humility can come out And I wish we would humble ourselves more but often god humbles us Mainly through a couple different ways through circumstances anybody been humbled through circumstances or just me Just when you think you're at the top of your game For me where it all started another rabbit trail But if you follow you probably heard that I used to after construction I got involved with 24-hour fitness and then I worked my way up and became a district manager over a lot of clubs and Employees and all these different things and uh for a good three or four years I would always go to the meetings top salesman in the east or western division. Jane Eidelman Jane, you know hitting board allocated budgets making the company a lot of money making myself a lot of money and you know, just And what happens you get puffed up? and so The board starts saying okay. Now you have to beat yourself by six percent next the next year It's called same store growth.

You have to beat same store growth by six percent Okay did that And it's getting harder and then I didn't do it and they give you notice three months to get this gold up Oh, we're gonna have to demote you What? Oh, he's breaking he's breaking the wild stallion. He's breaking break break break And then many times I won't go into a lot of detail my wife can tell you but our first year or so of marriage You know because two single people marry they think they're humble i'm so humble I love the lord and then you get living together and you realize you're not too humble And god breaks you through circumstances Anybody been broken through finances? I'll never forget we had one month left of savings. She said what are we going to do? I'm like I have no clue But that drove me to the cross because we can start getting bitter All this tax rate 70 000 new irs agents Now I got a lot to say on that but i'm not going there my point is not that My point is a lot of shenanigans going on The the the irs raid was so he won't run in 2024.

That's just the bottom line. It's up straight up so Um, and I don't care if you like him or don't that's just the truth of what's going on and we gotta speak the truth Unapologetically speak the truth. Everyone else is coming out of the closet Why can't both pastors come out of the closet and start telling people the truth? Oh Listen you're you're you're pushing your false narratives.

Why can't I push true narratives? My lord, where was that We're gonna remember. Oh, yeah breaking and fbi rig. Yeah, you want to go back to that one? Breaking and breaking and breaking and god is is and then you rise and shine then your light will come forth Then your light will come forth Anything we'll ever do from god or for god comes from this not through Not through negative nelly's and judgmental jerry's as woe is me life stinks life sucks America is going to hell in a ham basket.

I can get caught in there because I have to I have those same thoughts Because I actually I actually did something that I i'm glad I did it, but I wish I didn't do it Sometimes is I read about early american history And so I know how far we've drifted I know what was written in the mayflower compact I know what the supreme court justices. John jay said in his will that that that he gives his life to jesus christ I know that the

rules of harvard said let every student be plainly instructed And earnestly pressed to consider well the main end of his life in the late christ Jesus at the bottom as the only foundation of all sound knowledge and learning the supreme court All of our laws were based on biblical principles. You couldn't even run for office without professing a faith in god I can keep going i'm like, oh my lord.

Have we drifted so far or what? That's why they are rewriting american history That's exactly why All bad slavery deist. Did you know that it was christians who brought slavery to an end? You know, you know half of our founding fathers abhorred the practice And they said we've been given this this evil from great britain and we are working And see but you don't you're not exposing that because if you if you don't realize how How cracked the foundation is you're not going to do a lot to fight for it And the word that you'll hear a lot you've been hearing a lot is progressive progressives, right They think we're progressing but if you're if you're going away from god, you're not progressing you're digressing Hope you guys give the cd to a lot of your friends and family because we need to get the the truth out there About how far we've drifted from the truth and should we not be like nehemiah? Why should I not be sad when the place of my father's tombs lies in waste? Why should I not be sad when the millions who gave their lives for the freedoms? We now enjoy roll over in the graves to see how far we've drifted the thing They fought for one nation under god not to become one nation above god And see you have to fight for these you have to contend for these things Sure, twitter wants to silence me facebook is still sharing channel banning me a year and a half later Shut this guy up stop I bet I was on fox news a lot if you go and put shane idleman on fox news on youtube and fox sent me an Email privately from the person. I can't say her name, but she said hey They're going to cancel you pretty soon.

I'm probably going off too They're kind of getting more politically correct and see so shut it down. Shut that voice Shut that voice the the truth says I want to share the truth air runs from it Truth says let's down and talk about the truth air will run from the truth every time again So that's what you're seeing create this false narratives create these things That aren't true So it leads the people astray and I believe the pulpits the pulpits actually used to talk about these things I also stumbled across something else Pulpit sermons on political hot buttons They would talk about who's running for office in the 1800s and what they believed in there They would come against the prohibition of of slavery or alcohol or different things. They would they would speak upon it Benjamin franklin said gentlemen, hold on.

We're not getting anywhere with this constitution. We're not getting or let's devote a couple days You ready for this? For relaxation at the spa and meditate with yoga He said let us commit a few days of prayer and fasting If a sparrow cannot fall to the ground without his notice. Is it probable that an empire can rise without his aid? They reference the bible four times more than any other source and so you see how far we drift it started to break my heart Because we know the consequences of a nation that drifts from god so on one hand, it's very hard in my heart because I I have this pain and hurt and and concern But also have this holy fire and the zeal and this hope because I know god in the darkest moments That's when god brings revival In the dark and did you know we think the mega ministries are going to usher in revival? They're not not from wesley to spurgeon From john bunyan to jonathan edwards.

They were all converted One on one or a tiny church services, I remember I remember spurgeon charles burgeon anybody heard of charles burgeon I hope so A snowstorm stopped him from going to a normal church wasn't a believer He walks in there's about 15 people there in a blizzard this deacon gets up doesn't even really know what he's doing Just opens to isaiah 45 And and and it says god says look to me all the ends of the earth look to me and be saved He's pointing his bony little finger said young man Look to me and be saved and now we have this great work from spurgeon Converting thousands whose

sermons are printed more now than ever before. John Wesley was so convicted over the holiness of the methodist. He devoted his life and surrendered his life to god John bunyan heard these four women four women talking about their spiritual experience and he said I want that Remember god uses the little and the meaningless that we think But god says you plus me is the majority I'm convinced that god doesn't want the majority Because then they get all the credit And so that's why i'm very encouraged because in these dark hours god will bring revival A.w. tozer said life is a battleground not a playground So here if I could sum it up i'd say this although it's god who fills us fills us with his spirit We must yield And it's so it's so ironic.

I I love it's called the study It's called the pneumatology the study of the holy spirit and it makes so many conservatives nervous Oh, don't don't talk about that. We got the we got the father the son and the holy word There's But it's the holy spirit and empowers It's the holy spirit that that drives it the holy where did this energy come from this? Spending I had to put on worship this morning 4 30 in the morning say holy spirit fill me That's not weirdness. It's in the bible Somebody I think his name was paul Be being filled it's in the greek It's a a it's a present tense be being filled with the holy spirit by yielding by surrendering by submitting.

I didn't say weirdness I said boldness he satisfies us, but we must surrender he pours in when we are empty He breaks us to rebuilds us. He convicts us to change us So let the hammer of god break you let the savior shape you let his fire consume you let his love devour you Let the potter build you let the master lead you and let the bondage breaker release you to do his will And i'm gonna sum it up for the second time here But there's so much I feel that god wanted to say specifically this congregation And something I remembered when when michael said 50 year anniversary our first time here was 20 years ago We're up here celebrating our anniversary wedding anniversary And i'll never forget the text Because it it just popped, you know, it's something just It's when I when jesus rolled open the scroll Of isaiah, he said the spirit of the lord is upon me And you know what? I realized That same anointing falls on a spirit-filled believer Check your bible, it's not heretical. Jesus said you will do greater works than me Of course not greater and spoke.

He knew the perfect will of god. Everyone was healed everyone delivered everyone set free but scope broader every nation tribe and tongue You see I I believe a bible that says When you believe on me, you will cast out demons. You will speak in new tongues You will raise them you if you have a problem with that scripture.

You have a problem with the bible Now again, i'm again i'm conservative. Let me let me jump under my john mccarthur study bible, right? I'm like But it's bible And the more the more you're not you're not you're not you're not uh naive You're not just throwing caution to the wind But you're open as soon as I started to be open lord Do you want that spirit? I want the spirit of god upon me to set the captives free to release those who are bound I want all the holy spirit. I don't have any I don't want to play church I guess that's what i'm getting at.

I don't want to play church to you I want the fullness of the spirit. I didn't come here to to to to to speak to a social club I came here to awaken a dead and dying church We need to be desperate for more of god. We need to cry out for god again when god's people humble themselves Isn't that interesting? He didn't say if washington and hollywood humble themselves He said if my people who are called by my name will humble themselves and seek my face and turn from their wicked ways I will hear their prayers.

I will hear and heal their lands and I love the judgmental jerry who comes up to me afterwards and says You know pastor that's mainly that in context Permanently and homiletically speaking that verse is for historical israel We can't apply it today Now I love context. I don't take I don't like taking verses out of context and saying whatever it wants I I when I come up here, I literally tremble a little bit So that's my I can't wait till this is over so I can enjoy the rest of the day Because there's but it's not bad. It's a burden It's a burden thus saith.

What does god put on my heart? What's the word of god say there? There's a burden and I come here take it seriously I believe I truly believe that lives can be radically changed today without us. I know some will leave and upset That's okay. God will get you later But many people many people can be radically changed and encouraged and built up and strengthened could be a turning point So I come with that expectation.

Why shouldn't we expect god to move and the church is mightily filled with the spirit We we forgot that we come to church with the spirit of expectation Expectation Ask people at other fellowships. What are you preaching? I said, I don't know it's going to be top secret. You'll find out sunday Come expecting god to move I tell our worship team if you feel led to keep going Just tell me we're going to camp out here for a while and i'll step back down and have a seat This is a spirit filled led church wanting to hear from god and the demonic realm doesn't like it The arrogant pharisee doesn't like it.

The carnal christian will run for the cover But god is going to feed his people and encourage them So i'll never forget that scripture. The spirit of the lord is upon me Because he has anointed me to preach good tidings to the poor He has sent me to heal the brokenhearted to proclaim liberty to the captives And to open the prison doors of those who are bound So god can do that to your in your life as well But my point was on second chronicles You know contextually he's right Whatever that person whoever that is They're dealing with the nation of israel. God told solomon.

Hey, everything's good now but when I bring pestilence I don't sound familiar, you know pestilence are virus disease When I bring famine I don't think we've yet to see yet the tip of the iceberg of what all this Crazyness is going to do to the church And there's one of the guest speakers. I can't remember his name Victor marx Does he victor marx? You should look him on youtube very powerful guy wasn't a pastor So he said some things I could never say but He said what kova did it it uh It revealed who's who in the zoo When I bring pestilence When I bring famine When I bring drought Anybody been to lake mead or powell in a while? Sound like there you go Crowley, I come up here for 40 years I remember when crowley was much higher grant lake When I bring these things If your legislators and your your political officials if they humble themselves He said when you guys when you hear the call See, that's why we're angry, but we're not broken We're not humble when you Humble yourself and cry out to god, then I will hear your prayer and this is what I like to tell that part So you're telling me if the majority of american christians in america, not even the majority i'll take the minority I'll take the remnant when they're calling out to god when they're repenting of their sin When they're seeking his face like never before when they're fasting and crying out to god He's not going to hear their prayers and sir You need to reread your bible because the bible I read tells me that god will hear the cries of his people When I look to the hills, where does my help come from? My help comes from the lord god almighty when we cry out god will hear the cries of his children I truly believe that i'm not coming up here being a motivational speaker. Let me see if I can trick everyone We don't need your money.

All the books are free. All my books are free on the church website to download it I came because god has given me a burden of fire And often when the pulpit is aflame, so is the pew There's a poem many of you might have heard this on the radio Now i'll close they're closing But I like this because it we're at the church in lancaster I've got to hurry up because the next service is coming But they're letting us park now across in this empty five acre field and car parking troubles and and people are just Not happy you wouldn't know they're christians by the way to park Isn't that funny We don't get the right parking spot. We don't get this It's about and this will encourage some of you It's about this boy who kept falling and his dad is there.

He wants to impress his dad And he keeps falling in this race. He's he's in a marathon I've lost so what's the use i'll live use i'll live with my disgrace, but then he thought about his dad who soon he'd have to face Get up an echo sounded low get up and take your place. You are not meant for failure here get up and win this race With borrowed will get up.

It said you haven't lost it all for winning is no more than this to rise each time you fall So far behind the others now the most he'd ever been Still he gave it all he had and ran as though to win Three times he's fallen three times. He's stumbled three times. He rose again too far behind to hope to win But still he ran to the end They cheered the winning runner as he crossed the line first place head high and proud and happy no failing no falling no disgrace But when the falling youngster crossed the line last place the crowd gave him the greater cheer for finishing the race Even though he came in last with head bowed low and i'm proud you would have thought he'd won the race to listen to the crowd And to his dad, he sadly said I don't know why every time this poem gets me And to his dad, he sadly said I didn't do too well That was me in 1999 The prodigal son came home at 29 I said god i'm so sorry So sorry ruined my life He said to me you won his father said you rose each time he fell What encouragement for us today? God says get up and win this race America might go to hell in a handbasket.

The titanic's been hit but i'm going down with the vessel And we don't know if god's going to bring a measure of revival in our bondage What scripture says stop fighting give up wait for the rapture You know, there's division in rapture, too People ask me all I mean every you need to you need to talk about the rapture you need what do you what's your are You pre-millennial post-millennial all millennial? I'm i'm i'm pan What I call panel Oh, i'm gonna see how it all pans out in the end. Yeah, they call it something pan Pan trip, yeah i'm pan trip And here's why I don't want to tell my kids. Hey, don't worry when it gets real tough.

You're out of here Can you imagine? Tell hey, don't worry don't worry guys when it gets real tough you're out of here. That's not how you build warriors You prepare them for what might be ahead Maybe god will spare us. But how do you know? We won't go through some very very very go just go tell the christians in the middle east are getting beheaded Hey before it gets real bad.

You did. I know you just saw your son murdered and your daughter raped But before it gets give me a break so The closing point is to the believer if you fall in If you have been walking with the lord change that today God will do amazing things with the life fully surrender to him The most miserable spot you will ever live is where I lived for 17 years A double-minded man is unstable in all his ways How long will you follow two opinions? on mount carmel the prophet proclaimed how long will you Follow two opinion if bell be god follow him shame But if god be god follow him and I like god on sunday, but boy I sure like this on monday And I i'm double-minded. I'm not fully surrendered.

I'm miserable miserable So surrender your life completely this morning and there might be some of you like wisp virgin That man said just look look and be saved Other translations say turn to god and be saved And it's interesting the word repentance actually means that It means to turn So when a person repents they're walking according to the ways of this world They love the things of the world. They don't really like god they don't definitely don't like this message and they're just They're just and god says turn from that arrogance and repent turn Turn and see the cross Bow your knee to the cross and you will be saved Listen, jesus is not a way The only way there is not your truth. There is the truth And I want to just encourage you guys this morning full surrender Full surrenders.

That's only reason the only reason I don't need anyway The only reason i'm up here today And I appreciate the kind words, but you have to understand. I know the real shane eidelman And he would never be up here today It's what god does with a broken vessel surrender to him And be encouraged. You don't have to be perfect But there's a difference between our pride Excusing our imperfections and humility saying god i'm desperate for more of you
