## Transcript

In the right hand of God in eternal glory. Brethren, hear His words. Go into all the nations.

Why? On what basis? He said all authority, all power has been given to Me, committed to Me in heaven and on earth. Therefore, go. Why? Because I'm going to be with you until the end of the age.

What does that mean? It means He's still working. He's working through His church. He continues to work.

He goes on working. And on and on working. Because Christ is not done working, therefore, we go.

The whole idea here is that when we proclaim the Gospel, He proclaims it. When we send a missionary, if you look at Acts 13, that church at Antioch sent out Paul and Barnabas. But it also says the Spirit sent them out.

You see, it's in coordination. He's working through us. When a church is planted, He does the work.

Brethren, if a church gets planted, if people get converted and are added to a church over in Nepal, we can look at that and say the Lord builds the house. Because we labor in vain if He does not do that. This is

Him working.

The book of Acts is Christ working. It is the risen Christ working. You remember, you remember, they went to the beautiful gate and the man is jumping and leaping, shouting for joy.

And they said, we didn't do that. That's the whole idea here. Did somebody preach to the Ephesians? You better believe somebody preached to the Ephesians.

It can be said that Christ preached to the Ephesians because He's the One that matters. It's His voice. It's them hearing His voice.

He does the work. He has authority to do the work. Brethren, we need to once and forever get past this idea that it's the politicians that run this world.

Don't worry about who the President is. We know who sits on the throne, brethren. And He is working.

And we're watching Him work. And we of all churches in this world, we can say, yes, we have seen His hand. Such things have happened as we could have never done in our own strength.

We could have never done with our own wisdom. We would have never figured out. With the backwardness and the... Brethren, we look at this thing and we say praise the Lord.

Praise Him for His excellent glory. Praise Him that He does work through His people. That's the basis upon which we are to go forward.

Why?
